NUMBER 2

COSTLY REALTY BALKS PROJECT FOR CITY PARK

Trustees Vexed in Search for Suitable Land at Moderate Cost

Suitable sites for the village hall and park project in Antioch have been placed at a premium. It was disclosed at the Tuesday meeting of the village board in a report of the investigating committee which is attempting to find land at a moderate cost.

It was pointed out that under the assessed property valuation within the corporate limits a bond issue not to exceed \$12,500 could be floated which would equal the 55 percent share of the village in the Works Progress administration plan.

Not Enough for Labor.

This means that with the prices of real estate being held so high, too much money would be expended for property which would defeat the government's plan to use the bulk of the money for labor and materials in the project to put men back to work.

Following a discussion of suitable sites, the trustees outlined plans to approximate the cost of erecting a community hall without a park if the cost of real estate was to be out of the question.

Opportunity Lost!

Trustee E. O. Hawking, a member of the investigating committee to get land prices, directed attention to the fact that the villagers allowed all lake sites for bathing beaches to be tied up forever by not taking one when the opportunity presented itself a few years ago. As a result the people of Antioch do not have a spot for water sports in the midst of the Lakes region but must cater to lake front property owners when swimming is desired.

He declared that now is the time, if ever, for community improvement, because the village cannot afford to allow the present opportunity of Federal aid to slip by. One answer to the problem, he felt, may be for the village to purchase a site and re-sell part of the land as lots which will leave sufficient land for a park.

LAKE CO. YOUNG PEOPLE TO HOLD CHURCH OUTING

Religious Education Group Plans First Field Day at Camp Hastings

The First Young People's Field Day, sponsored by the Lake County Council of Religious Education, will be held Saturday, September 7, at Camp Hastings, near Lake Villa. It is announced by the Rev. Wm. D. Rule of North Chicago, who is chairman of the day's program.

Anyone of at least high school age is eligible to attend and those living in the fifth district, which comprises the churches of Antioch, Fox Lake, Ingleside, Lake Villa, Grayslake, Round Lake and Millburn, are urged to send their registrations to Miss Ruth Minto of Antioch, not later than Saturday.

The day's program follows:
8:45 Registration.
9:00 Devotional Period, led by Rev. Mr. Rule.
9:10 Address of Welcome—Rev. Fred Balduz, Waukegan, Pres. of County Council.
9:30 "Christian Youth Building a New World Through the Church."
10:00 "Christian Youth Building a New World Through the Home."
10:40 Address.
11:00 "Christian Youth Building a New World Through Society."
11:40 Panel Discussion: Led by County Young People's Workers.
12:00 Luncheon.
1:30 Rest and Relaxation.
2:00 Directed Play: in charge of Rev. and Mrs. S. A. Recht, Long Grove (Hikes, boating, swimming, tennis, etc.).
4:00 Indoor ball game: Faculty vs. Students.
6:00 Supper.
7:00 Vesper: Led by Rev. H. F. Siemens, Highland Park.
7:30 Campfire: Group Singing, led by Mrs. Wm. D. Rule.
7:45 Closing: Consecration Service: Led by Rev. Mr. Rule.

There is a charge of \$1.25 for each person attending to cover the cost of two meals furnished by the camp and the use of all camping equipment during the day.

Antioch High Plans to Provide Student Activities for All

In order that every Antioch Township high school student may attend every high school activity throughout the school year at a minimum cost, an activity card system will be inaugurated with the opening of the 1935-36 term, Tuesday, September 3.

According to present announcements, a student activity card which will entitle each student-holder the right to attend any high school activity at no additional cost. Among the many activities to be included under this classification are: all athletic contests, two class plays, all assembly programs, two music concerts and a series of school dances. In addition to the card includes a subscription to the school paper and the school annual which ordinarily is equal to the cost of the entire activities card.

Under the new plan, the school heads point out that all students may participate for a small sum, whereas in former years many students found it difficult to attend these various activities. Were the students to pay the regular single admission price for each event, the total charge would equal about five dollars per semester. It will likewise be possible to purchase these cards on a payment plan of 5 or 10 cents, but they must be paid in full by the end of the first 10 weeks of each semester.

The educators believe the activity plan will stimulate an intense interest in school activities as a whole besides developing a finer spirit of cooperation and school pride among the students.

1ST COMMANDMENT TO BE PRODUCED BY ANTIOCH CAST

Well-Known Drama to be Staged at High School Tues.-Wed. Nights

An unusual, spectacular drama entitled "The First Commandment" will be presented Tuesday and Wednesday evenings in the Antioch Township high school gymnasium.

The production, which is being sponsored by the Ladies' Aid of the Methodist church, has had several successful engagements in many communities throughout Illinois, Wisconsin and Indiana and is owned by the American Education Company.

Play Highly Praised

The play comes directly from an enthusiastic reception in Oconto, Wisconsin, and the cast selected from local people there had intended to travel 300 miles to present a performance in Antioch.

However, Miss Roberta Doughty of Evansville, Indiana, the stage director and coach for the company, after interviewing several prominent Antiochans, disappointed the Wisconsin group by choosing a cast entirely from this community. Those selected are:

Among the Cast
A. H. Pierstorff, S. Boyer Nelson, Ralph Clabaugh, Homer La Plant, William Anderson, Charles Werz, George Wagner, Clayton O'Haver, Rev. Loyal Sittler, Ray Van Patten, Clarence Anderson, Frank Spangard, William Hansen, Howard Nelson, L. R. Van Patten, Russell Barthel.
Fred Yates, Richard Macek, William Murphy, Arthur Hunter, Earl Horton, Virgil Horton, Robert Burke, Robert Strang, Kenneth Mills, Mr. and Mrs. H. B. Gaston, Henry Quendler, Dr. R. D. Williams, Henry Quendler, Mabel Simonsen, Mildred Horgan, Dolores Sittler, Robert Gaston, Gayle Pierce, Ruth Ferris, Edna Van Patten, Katherine Smith, W. C. Pelly, Marvle Heath, Mrs. Virgil Felter.

Educational and Entertaining

In addition there will be a big choir under the direction of S. E. Pollock, choir leader, and Hans Von Holwege, Organist.

Miss Doughty has brought along elaborate lighting equipment and authentic costumes of 2,000 years ago in order to stage the production which is educational as well as highly entertaining. In order that everyone may have the opportunity of seeing it, admission price has been held to 35 cents per person. A special children's performance will be given Monday night with a 10 cent admission ticket.

Attends Manx Convention

William Kelly spent last week in Cleveland, Ohio, attending the North American Manx convention, an annual event that attracts representatives from all parts of the world. Over 400 natives of the Isle of Man were served at the annual dinner.

STATE FIREMEN EXPECT RECORD CONCLAVE CROWD

Lake County Firemen to Be Hosts at Waukegan Oct. 15-16-17

When the visiting fire chiefs and smoke-eaters get together for the 48th annual convention of the Illinois Firemen's association to be held in Waukegan, October 15-16-17, a record attendance from outside the state is expected to swell the crowd.

Although the state has a membership of more than 400 departments in the various counties, plans are under way to accommodate more than 1,000 firemen, according to John L. Horan of Antioch, secretary of the Lake County Firemen's association which is sponsoring the convention.

Several groups from Wisconsin have already signified their intentions of attending the Illinois meeting. Cooperating closely with the county firemen is the Waukegan Chamber of Commerce committee which is composed of F. Ward Just, chairman; C. L. Van Sickle; G. R. Manz; P. E. McCallum and John G. Gember. The advisory board of the county firemen is: Chief Ed. Schneider, Libertyville; Chief Jack Johnson, Deerfield; Chief Fred Hamlin, Lake Villa; Chief Phil Froehke, Waukegan; A. W. Foss, Libertyville; Ray Wells, Mundelein; John L. Horan and Frank E. Huber, both of Antioch. Chief Adolph Franke of Waukegan and Horan will have charge of all local details.

Chief Albert Herring of Morris reports that he has allotted more than half of the Waukegan Armory for exhibit space during the meeting and already reservations in the various hotels at the county seat indicate full-houses.

NINE DAYS LEFT TO PAY TAX BILL

Delinquent Date Is Set for Sept. 1; Court Action, Penalties to Start

Only nine days remain for the payment of the second installment of general taxes without the additional payment of a penalty.

This was announced this morning by County Treasurer Allen J. Nelson who pointed out that all county taxes become delinquent on September 1 on which day a penalty of 1 percent a month will be added to unpaid taxes. Immediately after September 1, the county treasurer's office starts preparing the tax delinquent list to be published and later to be presented to the county court before Judge Perry L. Persons for judgment and for permission to hold a tax sale.

Distribution of the tax funds collected by the treasurer's office since the last funds were turned over to the 185 taxing bodies in the county will be made shortly after the delinquent day. About 52 percent of the taxes extended on the 1934 property valuations have already been distributed to the taxing bodies, including grade school boards, high school districts, sanitary districts, park districts, cities, villages, townships and county government.

The total tax extension made on the levies of the various taxing bodies in the county was \$4,656,914.39. Of that amount \$2,396,827.40 had been paid in to the treasurer and distributed to the taxing bodies in payments the middle of May and the first part of July.

To avoid last minute rushes, property owners are urged to settle their tax bills the few remaining days this week or the first part of next week.

Old-Age Pension Bill Booms Public Demand of Birth Certificates

New Illinois laws involving old-age pensions have brought the biggest demand for birth certificates ever experienced by the State department of Public Health, according to Dr. Frank J. Jirka, director of the department. Thousands of people in the pensionable age bracket are now faced with the problem of proving their correct age, especially among women.

"Birth registration was so generally neglected 85 years ago that many applicants for pensions had no official records of their births," Dr. Jirka points out. "In addition to its value in connection with the current pension plans, such a certificate is important to obtaining insurance claims, passports into foreign countries, inherited wealth, rights of citizenship and numerous other privileges."

COUNTY FARMERS AWAIT OPENING OF BIG PICNIC

Tuesday's the Day! Dia- mond Lake's the Spot! Big Crowd Expected!

If barnyard chores are slightly alighted Tuesday, think nothing of it because that's the day of the annual farmers' picnic and 4-H roundup which is to be held at Diamond Lake.

More events, closer competition, bigger exhibits—everything, including the anticipated crowd from rural as well as urban residents, promises to make this year's outing among the greatest ever staged by Lake county's farmers, according to information received from Harry Oikerson, county farm advisor.

Big 4-H Club Exhibit

Earl Kane and his committee who have charge of the Boys' 4-H club work declares that three tents will be necessary for the boys' stock show on the grounds, while Mrs. E. E. Esbury, county chairman of the Girls' 4-H club work reports more entries in her department than in the past. Mrs. L. D. Potter, head of the committee on Home Bureau exhibits, promises an extensive display and demonstration. The kids and the grown-ups will have the chance to exhibit their pet dogs, whether full-blooded, mongrel, pedigree or mongrel, and can enter Sir Canine in the high jump, broad jump, trick dog, tall dog, small dog, or what have you contests. There's a special department for the tallest stalk of corn, largest ear of corn, biggest potato, prettiest flower or anything produced in the garden or field this year.

Firemen Hold Water-fight.

The various fire departments of Lake county will present a water-fight for the picnickers and the Skill Drivers' club will demonstrate their wares in a contest.

In the afternoon the District Baseball championship will be settled when the fast-stepping aggregation of the Lake County Farm Bureau meet the troublesome lads from DeKalb county. These two teams are deadlocked in first place. The farmers from Libertyville who have been showing their stuff with the softball all summer will be matched with the Lake Zurich girls at 6:30 o'clock as another feature on the elaborate program.

Races for Everybody

L. Kane and his committee are planning to stage races for boys, youths, misses, ladies and gentlemen at 1:30 o'clock while in the morning at 11 the horseback pitching tournament will be run by the committee headed by Mr. Hoffman.

The largest family present, oldest person on the grounds, youngest and oldest married couples together with the longest married pair will be awarded prizes at 4 o'clock. Other special registration prizes will be awarded by the Public Service Company of Northern Illinois.

Style Show, Too!

At 8 in the evening there will be the Girls' 4-H Club Style parade and the Home Bureau style show. Livestock will be paraded at 1 o'clock and again at 8:30 o'clock.

The day will close much later in the night with old-time and modern dancing to the tune of Chris Hapke's orchestra. There will also be special displays by the Public Service Company, International Harvester company and others.

Well-Driller Finds Relic of Glacial Times in Illinois

While drilling a well between Waukegan and Lake Zurich, Ted Hucker, driller for Runyard & Chase of Channel Lake, discovered a fossilized fern imbedded in rock. The specimen is nearly perfect and shows the decomposition of plant life under pressure of the earth. It was removed from a depth of 240 feet, the driller explained. According to geological estimates, the original fern was probably crushed under the earth among the rocks during one of the glacial periods when this section of Illinois was covered by the gigantic ice-sheet.

Cooler Return from a Trip Abroad

Mr. and Mrs. Thomas Cooler of Loon Lake returned home this week after a trip to England and the Isle of Man, where they visited relatives and friends. They arrived in Cleveland, Ohio, last week in time to attend the North American Manx convention. Mr. Cooler has been a resident of the United States for the past sixty years and during that time he has revisited his native Isle 10 times.

Superintendent Ralph E. Clabaugh returned to Antioch Saturday.

Michael L. Igoe to Be Keynote at Demo. Picnic

Michael L. Igoe, United States District Attorney, has signified his intention to serve as keynote speaker when the political fireworks are set off at the Fourth Annual Lake County Democratic picnic to be held in Serbian Monastery park, north of Libertyville, Sunday, September 8, according to word received by Elmer Sorenson of Channahon Lake, general chairman of the outing committee.

Detailed plans for boosting the record crowd of 10,000 who were present at the outing last fall, were discussed at a meeting of the political chieftains at Sorenson's Monday night.

Igoe, who was elected congress-

man-at-large of the State last fall, has stumped Lake county on several occasions. During the primaries to the last presidential campaign he was defeated by Gov. Henry Horner as the gubernatorial candidate on the Democratic ticket.

ANTIOCH LEGION COMPLETES 4-DAY CARNIVAL PLANS

Pleasure-seekers Promised New Features Over the Labor Day Week-end

Legionnaires of the Antioch American Legion post unveil their four-day festival next week, beginning Friday and extending over Labor Day, on the lot at Main and Park streets just east of Ray's service station.

There will be nothing allowed on the grounds but clean, wholesome amusement, Commander Otto S. Klass declared in discussing the consummate plans, and explained that the Legion members have prepared to accommodate the largest attendance to witness such an event in Western Lake county.

All types of rides and amusements are promised for young and old alike. He said and there will be a feature ride that has never been in the community before. Valuable merchandise awards are to be presented free every night to lucky persons in the throng who must be on the ground to claim them, the commander explained.

"STRANGLER" LEWIS MEETS KIRSCHMEYER

World's Ex-Champion Tries Come-back against Youth at Round Lake Friday

The free-for-all rush for a bang at the heavyweight wrestling championship crown of Danno O'Mahony will find Ed Strangler Lewis, the 44 year old veteran of more than 3,000 mat clashes and five times holder of the head-man spot of the sport, meeting the youthful Rolland Kirschmeyer, the aspiring Oklahoma giant, in the Round Lake Haunted House arena Friday night.

Kirschmeyer is the matogonist who has caused Antioch Jim McMillen annoyance in recent Chicago bouts, gaining a disputed decision over Jim when the Antiochan became tangled in the ropes and didn't free himself entirely within the ten-second time allotment and later succumbed to McMillen's lying tactics for the long count. Two weeks ago, the Oklahoma man settled Olaf Olesen, the Milwaukee Swede, firmly on his shoulders in the Lake county ring.

Winner vs. McMillen, Maybe!

Chicago, as well as Lake county, interest is attracted to the Lewis-Kirschmeyer tussle as the winner will probably be matched with McMillen who is being considered in nationwide wrestling circles as the top contender for the title match. The Antioch giant is taking a brief vacation from the ring in favor of filling his former position as guard on the Chicago Bears' Professional football club which is training at Delaford, Wisconsin, for the Chicago Soldier Field battle with the All-Americans August 29.

In the semi-windup Able Coleman, Jewish Apeman from the New York ghetto, meets another youngster in Don Kock, Marquette University flash. Andy Dahl, another footballer from the University of Illinois and 1935 Big Ten wrestling champion, makes his debut against the slugging George Mack who was cooled by Ray Richards recently. Bobby Burns of Lake Villa tangles with Cowboy Eckley, the Wyoming toughy and as a novel curtain-raiser, George Zorsey of North Chicago meets Johnnie Steneck of Libertyville.

HIGH SCHOOL OPENS WITH REGISTRATION ON MONDAY-TUESDAY

Upper Classmen Enroll 1st Day; Fresh, Sophs, on Tuesday

Registration days for Antioch Township high school are Monday, August 26, and Tuesday, August 27. Pupils are urged to register on those days in order to be assured that they can take what they want. Parents are invited to accompany the students in order to discuss the selection of subjects. Juniors and Seniors will register Monday; Freshmen and Sophomores, Tuesday. All freshmen are asked to meet at 2:00 in order that explanations may be made in a group. Freshmen should bring their eighth grade diplomas.

The courses offered and the texts used will be almost identical with those of last year. Art will be omitted.

Subjects Listed

The following subjects will be offered. Subjects listed in capitals are required—others may be selected.

FRESHMEN

ENGLISH, Mathematics I, Algebra, Latin, Foods, Agriculture, Business, Industrial Arts, General Science, Ancient History, PHYSICAL EDUCATION. Girls taking Foods will register for General Science.

SOPHOMORES

ENGLISH, Geometry, Censor, Ancient History, Agriculture, Clothing, Industrial Arts, Biology, Bookkeeping, PHYSICAL EDUCATION.

JUNIORS

ENGLISH, Advanced Algebra, European History, Farm Mechanics, Mechanical Drawing, Shortland I, Typing I, Cicero, German I, Chemistry, PHYSICAL EDUCATION.

SENIORS

ENGLISH, AMERICAN HISTORY, Economics, Cicero, German II, Shortland II, Typing II, Farm Mechanics, Chemistry, Mechanical Drawing, PHYSICAL EDUCATION.

Public Speaking may be selected by anyone. Other subjects available to all are band, orchestra, chorus, girls' glee club, boys' glee club, and library science. Physical education will be required.

University Prerequisites

A graduate of Antioch Township high school can enter any university in the middle west without examination if care is used in the selection of subjects, if recommended by the principal.

In general, the following are required for college: four years of English, three of Mathematics, two of language, two of science, and two of history. If it is likely that the pupils may enter college, the advice of the principal should be sought to learn more of the particulars, as the various college courses have somewhat different entrance requirements.

Books and locks should be purchased on the days of registration. Selling books at cost does not warrant charge accounts. The supply of used books is limited. Student activity cards (as described elsewhere in this paper) should be purchased at the beginning of school.

School begins Tuesday, Sept. 3, at nine o'clock, daylight saving time.

What? No Nudists' Colony Near Lake Villa or Nothing!

Maybe it was the semi-nude parade on Antioch's great white way that misled them, but a couple of male September Mornas discovered Lake Villa was not a nudist colony Sunday. Seems the motorists touring along the highways near the lakefront spotted the antics of the two and went to Constable Vergne A. Nixon of Lake Villa with wild yarns of a nudist colony. Constable Nixon investigated and met the two would-be nudists frolicking in the water, made them come out and put on some clothes and brought them before Justice of the Peace William Weber on charges of disorderly conduct. The "nudists" gave their names as John Laird, 21, and William Downie, Jr., 27, both of Waukegan. The nudist colony in the vicinity of Antioch must be somewhere else!

Chicagoan Purchases Lake St. Gas Station

Fred Houghtby, formerly of Chicago, has purchased the Lake Street Service Station which has been owned and operated by Charles Anderson for the past year. Houghtby is bringing his family to reside in Antioch this week and will occupy the residence next to his filling station at the corner of Victoria and Lake streets. The Andersons are intending to take an extended trip throughout the western part of the United States.

THE NEXT CAMPAIGN

Is the President's prestige slipping? Answer, according to the view of most political experts, is Yes. Will he be re-elected in 1936? The answer is Probably—but not by anywhere near the margin of his 1932 victory.

Have the Republicans a chance in 1936? A fair one—if Mr. Roosevelt keeps on slipping.

A real test of New Deal power recently occurred in a Rhode Island congressional by-election. The district was carried by the Democrats last time, by a 30,000 majority. This time the Republican candidate took the plume by a 20,000 majority. Issues were clearly cut—pro and con New Deal measures, with especial stress on Federal spending.

It is true that Republican leaders are more optimistic now than they were even a few months ago—and their attitude has changed entirely from the bitter defeated feeling they had after the Congressional rout of 1934, in which Republican Congressional representation dropped to one of the lowest points in history. Many Republicans, along with some unbiased publicists, feel that they can win next year—if they get the right candidate.

No outstanding candidate has appeared, in spite of talk about a dozen different men. Chances are that the candidate will be a middle-of-the-road man, with liberal tendencies.

Under any circumstances, the ether will burn when Mr. Roosevelt and his opponent step before the microphone—unless all are wrong, it will be the bitterest and the hardest fought campaign in generations.

SHARE WHOSE WEALTH?

Much of the public support behind "share-the-wealth" tax measures has arisen from a misunderstanding of what would actually result—misunderstanding that has been largely caused by biased, exaggerated and altogether erroneous statements by enthusiasts and by politicians.

It is a statistical fact that an absolutely equal sharing of corporate earnings would make little difference in the wage earner's pay envelope. If all salaries, dividends and interest paid by American industry during 1928, a boom year, and 1932, a depression year, had gone to labor, the average worker would have received approximately \$10 per month more—two cents an hour.

In brief, those who believe that "share-the-wealth" schemes will make us all rich, are vastly misled. At present, the share of the national income going to labor is extremely high—and it tends to increase. The share that goes to capital—in the form of dividends and interest—is, on a percentage basis, extremely moderate, and is tending to decrease. Industry, as a matter of fact, is voluntarily "sharing the wealth" in a sound way—through higher hourly wages, shorter working weeks, pension plans, and other benefits received by the worker.

Corporations and individuals of great wealth are much rarer than the politicians would have us believe—and depression has thinned their already small ranks. Further, the money invested in the average American corporation has been put there primarily by thousands of ordinary people, many of whom work for the company, or patronize it. Under the American system, the worker gradually becomes a capitalist in his own right, through home and security ownership—and it is these little capitalists, rather than the few men of

millions, who earn and receive all but a small part of our total national income.

"SOCIALISM BREAKS DOWN CHARACTER"

In a recent address at the University of Georgia, P. S. Arkwright, President of the Georgia Power Company, said: "Idealistically, the theory of socialism says that all should strive for the common good, not for individual gain. That is the ideal, but in practice it works out just the other way. It breaks down character, instead of elevating it, because it destroys reliance upon self. The young American colonies would never have conquered the wilderness, if they and their leaders had been dominated by the schools of thought which now hold sway."

The examples of European countries which have adopted socialism and similar doctrines point to the danger of listening to those who would change our time-tested governmental philosophy only to adopt alien theories. Under socialism, communism, fascism and the rest the individual is ruthlessly subjugated—he is simply an instrument of the state, and not a free agent. His rights and liberties are ruthlessly stepped upon—all ambition, initiative and spirit are squeezed out of him by the boot-heel of dictatorship. America, with its inspiring heritage of freedom, certainly does not want that to happen here.

STAND ON YOUR OWN LEGS

A federal court has declared that the government's processing tax—backbone of the Agricultural Adjustment Administration Act—is illegal. The case will next go to the Supreme Court, which, according to eminent legal authorities, is almost certain to uphold the decision of the lower tribunal.

If that happens, it will mean that the present program of government farm relief has virtually collapsed. And that illustrates something that every citizen would do well to think about—that governmental effort to aid any class or group, no matter how well intentioned, are inevitably transitory and unstable.

For many years leading farm spokesmen have said that, in the long view, the farmer's salvation will depend upon his efforts, his own work, his own abilities. The bulk of thinking farmers share that view. They know that self-help is the only kind of help that can produce permanent results. And they are planning and working accordingly.

Better and more scientific farming, plus improved buying and selling methods made possible by agricultural cooperatives, are the great influences behind farm progress.

HIGH COMMENDATION

The fame of the Antioch Volunteer Fire Department is far more than just of local interest. This organization, because of genuine meritorious service has been recognized as one of the leading volunteer groups in northern Illinois. The following comment regarding the work of the local firemen was printed last week in "The Eye-Opener" column of the Waukegan Times:

There is one organization of men in Lake county that deserves the highest commendation for their work in behalf of their fellow-men. . . . That organization is the Antioch Fire department, a company of volunteers who for years have dedicated themselves to the saving of life and property. . . . They have done remarkably meritorious work in the fighting of fires throughout the lakes section but they are best known perhaps for their work in recovering bodies of drowning victims and for their efforts in reviving persons who have passed near the borderlands of death. Last Sunday they saved the life of a young woman—a wife and mother—with the aid of an inhalator. . . . The woman who sank for the second time in Loon Lake recovered sufficiently to spend a pleasant evening with her family who for nearly an hour believed that she was lost to them.

MILLBURN

The Ladies' Aid Society held a successful bakery and food sale at Gago's Lake on Saturday and \$19.16 was realized for the treasury.

The 52nd wedding anniversary of Mr. and Mrs. C. E. Denman of Gurnee was celebrated at the home of Mr. and Mrs. J. S. Denman Thursday evening with the families of Edwin Denman of Melleny, Schuyler Denman of Waukegan, and W. A. Bonner attending. In addition to the J. S. Denman family and the honored guests.

Mr. and Mrs. Ben Herriek of Iowa are visiting at the home of his brother, Harry Herriek.

Mrs. A. J. Johannsen returned to her home in Chicago after spending two months with her sons, Arthur and Edwin, here.

The local achievement day of the Happy Rainbow Workers 4-H club was held at the home of their assistant leader, Miss Lila Behrens, Thursday afternoon, August 15, 1935. Ten mothers and friends enjoyed the varied program consisting of a recitation by Clara Jermakowicz, song by Elmo Lauer, reading by Billie Herriek and a demonstration of "Different Scams and Seam Finishes" by Lois Bonner. One member, Marjorie Geler, who is vouching in Krause, was unable to be present. Billie Herriek was chosen club champion in first year work, Lois Bonner in second year work and Marjorie Geler in first year advanced. Lemonade and cookies were served by the girls after the program.

Mrs. D. H. Minto and son, Donald, spent Sunday with the former's father's Mr. Morris Holloway, at the Frank Bradley home near Racine.

Grace and Margaret Denman, Bernice and Helen Bauman with Miss Edna Anderson of Barrington left Saturday for a week's camping near Waupaca, Wis.

Mrs. Frank Hlaaser and family spent Saturday with her parents, Mr. and Mrs. Hoff, at Camp Lake, Wis. Marie remained for a week's vacation with her grandparents.

HICKORY

Milly Nielson, a navy recruit at Norfolk, Virginia, writes home to his parents, Mr. and Mrs. Nels Nielson, that he will soon be through with his three months at Service school and then he expects to be sent to sea.

Mr. and Mrs. Hugo Gussarson and family spent Sunday with Mr. and Mrs. Olsen at Algonquin.

Miss Dorothy Spiering is visiting relatives in Chicago this week.

Miss Dorothy Hunter is spending a few days with her friend, Miss Cora Cremins at her home at Rollins.

Mrs. Andrew Grant of Edison Park visited from Tuesday until Saturday at the O. L. Hollenbeck home.

A. J. Pederson was a Chicago visitor on Wednesday.

Master Eugene Hoyer of Kenosha visited last week at the home of his aunt, Mrs. A. J. Pederson.

Mrs. O. L. Hollenbeck is visiting her sister in Edison Park.

Mrs. Alice Hall and daughter, Anne, from Detroit, Mich., also Mrs. Henry Ames and daughter, Genevieve, from Taylor's Grove, Ill., called on their cousins, the John Crawford family, Sunday evening.

Dr. and Mrs. P. M. Jorgensen from Kenosha were supper guests at the George A. Thompson home Sunday.

Miss Edna Pederson visited her cousin, Irene Hoyer, in Kenosha last week.

Mrs. Julia La Cross and daughters, Sue and Harriet, also her daughter-in-law, Mrs. Josephine La Cross, and Mr. Larson, all from Chicago, called at the W. D. Thompson home Sunday afternoon.

The Nels Nielson family entertained the G. R. Lantz family from Chicago, for dinner Sunday.

Mrs. Philip Gould and Norman, Eleanor and Vivian, from Grayslake, spent Friday at the George A. Thompson's.

Raymond Toft of Fox Lake road

Day Nurseries

In April, 1884, a charter was issued to the Nursery for the Children of Poor Women in the City of New York to care for the infants whose mothers were obliged to work away from home.

WHEN you have Careystone Shingles put on a building, you end roofing expense, for these shingles are as fire-proof and weather-proof as stone. Made of asbestos and cement in many colors and styles, you can select the Careystone Roof which best suits your building and your pocketbook.

Careystone Shingles can be laid right over most old roofs, thus saving the cost of removing the latter. Let us show you samples and quote prices on this permanent roof for any building, new or old. We can make your dollars go farther.

Yesterdays

News of By-gone Years in Western Lake County

Forty Years Ago

Mrs. George Webb and children went to Chicago Tuesday.

Tom Gilmore has been on the sick list for the past week.

Miss Bessie Edwards of Rogers Park and Miss Grace Gillette of Chicago have been guests of Miss Lela Williams the past week.

John McCormick who has been telegraph operator at the W. C. depot for some time, left Monday morning for Waukegan, Wis.

Mr. Rendy, father of Mrs. C. A. Foltz, who has been camping at Loon Lake for several weeks, returned to the city Monday.

Mr. and Mrs. William R. Williams entertained friends at a card party at their residence Tuesday evening.

Progressive euchre was indulged in until about eleven o'clock, when ice cream, cake and lemonade was served.

Fifteen games were played and the following lucky guests were: Ladies' first, Mrs. J. E. Perkins, a vase; gentlemen's first, J. J. Burke, whisky; broom; ladies' consolation, Mrs. W. F. Dodge, cake; gentlemen's consolation, J. E. Perkins, pen knife. A very pleasant evening was enjoyed by all.

Twenty Years Ago

L. D. Grice, wife and daughter are visiting at Port Wayne, Ind.

Born to Mr. and Mrs. Charles V. Kruta, a daughter, August 13.

Mrs. Arthur Edgar spent Monday in Chicago.

Mrs. J. J. Morley and children, Phyllis, William and Robert, are visiting Mrs. Mildred Wood at Waukegan, Wis.

Misses Dora and Grace Van Duzer returned home Sunday after their visit with their sister in Onarga.

Fifteen Years Ago

Howard Hadlock is visiting relatives in Kenosha.

Born to Mr. and Mrs. Joe Horton, Monday, Aug. 23, a nine pound boy.

Mrs. Charles Eitinger of Chicago spent the past week with her sister, Mrs. John Martin.

A daughter arrived at the home of Mr. and Mrs. Tom McGreal in Waukegan, Tuesday, August 24.

Louis Shattis and Lyle Stiekles left Wednesday evening for Billings, Montana, for a stay of indefinite length.

Miss Louise Roeschlein was taken to the hospital in Chicago Sunday morning and was operated on for appendicitis the same afternoon. Latest reports are that she is getting along nicely.

Hints for Motorists

By C. R. Strouse
Director, School of Automobiles,
International Correspondence
Schools

A SOLUTION of washing soda and water applied with a stiff brush will remove corrosion from storage battery terminals. Coat terminals with vasoline to prevent further corrosion.

If the rubber weatherstrips around the windshield are enclosed in T-slots it is often a difficult job to remove the old strips in order to replace them with new ones. To make a difficult job an easier one, play a small flame from a soldering torch over the old strips. The softened rubber can easily be dug out with a screwdriver.

Shoot From Right Shoulder

Most shotgun fans shoot from the right shoulder, and, in most instances, the right eye is the "master eye." However, observes a writer in the Kansas City Star, in many cases the left eye is the dominating optic and, when this condition exists with a right-handed shooter, difficulty in correct gun pointing is experienced. Such an individual, if shooting with both eyes open, is quite liable to "cross-fire" without knowing it, for although he believes he is pointing with the right eye it is the left eye which is registering the guidance. Such a shooter should close his left eye or learn to shoot from the left shoulder.

No Running Over Bridge

When, long ago, the city fathers of Luray built themselves a bridge across a nearby creek they must have built a flimsy structure. For they made a law, still on the statute books of the Virginia town, which stated that no boy "should trot or run across the bridge even if he were barefooted."

Latin Is Out

Latin is not the language of any nation today. The so-called romance languages, French, Italian, Spanish, etc., are direct descendants of the language of ancient Rome, but they are not Latin.

WILMOT

Mr. and Mrs. Edward Boulden and daughter, Lorraine, of Edison Park, spent Sunday at the Boulden home.

Rev. J. Finan attended the bazaar at Brighton Catholic church Sunday.

Mr. and Mrs. David Kimball and Mrs. George Faulkner spent Sunday with Mr. and Mrs. Clayton Lester of Spring Prairie.

Mr. and Mrs. William Harm entertained at a family dinner on Sunday for Mrs. John Grabow and daughter, Frieda, Burlington; Mr. and Mrs. Frank McConnell, Jr., of Elgin; Mr. and Mrs. Oliver Balza, Kenosha; Mr. and Mrs. F. Ehlert and family, Spring Grove; Mr. and Mrs. Herman Frank and daughter, Wilmot; Mr. and Mrs. Earle Harm and son, English Prairie; Mr. and Mrs. Roy Kufalk and family of Antioch spent the afternoon at the Harm home.

William Harm, Rodell Harm, Geo. Dean, Sr., and John Grabow returned from Yett, Iowa, Saturday. Mr. Harm and son, Rodell, and John Grabow had been in Iowa for the past two weeks and Mr. Dean for the past two months.

Dick Carey has been ill with flu and under the care of Dr. Nye of McHenry.

Howard Zoerb and daughter, Ruth Ellen, Mrs. L. Holdorf, Milwaukee; Mr. and Mrs. Henry Kotz and Lucille Smith, Kenosha; were Sunday guests at the Runkel home. Bernice Elverman spent a day with the Runkels the last of the week.

Mrs. Harry McDougall and Mrs. Don Herrick were in Burlington, Saturday.

Mr. and Mrs. Ray Ferry, Kenosha, spent Sunday with Mr. and Mrs. T. O. Loftis.

There will be Sunday school at 8:45 and English services with communion at 9:30 Sunday morning at the Lutheran church.

Rev. and Mrs. S. Jedele are visiting relatives until Thursday at Watertown and Appleton.

Mr. and Mrs. Wm. Eilers, Mr. and Mrs. J. Clyde Wilson, Richmond, were recent callers of Mr. and Mrs. Paul Voss.

The Wilmot High School will open on Tuesday, September 3. Pupils wishing a conference with the principal M. M. Schnurr, call 464 and arrange for it.

Mrs. Pasquale Allen and daughter, Ruth, and Mrs. J. Allen of Green Valley, Ill., spent the past week as guests of Mr. and Mrs. Eugene McDougall.

Mrs. Wallace Bohyns and son, Eugene, of Quincy, left for home Saturday after a stay of two weeks at the Carey home. Rose Burton, of Kenosha, spent from Tuesday to Saturday at Carey's.

Mrs. Eugene McDougall and Mrs. Pasquale Allen entertained Saturday afternoon for Mrs. M. Ballantyne and daughters, Jean and Martha; and the Misses Rose Burton and Grace Carey.

Mrs. Ella Winn and son, Lorenzo, returned Saturday from a week's visit with relatives at Des Moines, Iowa.

Thirty-two dollars were cleared at the lawn card party held at the Carey home for the benefit of the Holy Name church Friday afternoon. Wednesday afternoon, Mrs. Nicholas will be chairman of a group of ladies who entertain at cards at the church hall, for the benefit of the church.

Mr. and Mrs. Don Herrick and Mrs. Clifford Rasmussen were at the Victory Memorial hospital on Sunday to visit Mr. Rasmussen.

Wilmot Teacher Weds. Sunday in Plainview, Minn., Sunday noon.

Miss Maryon Zabel, daughter of Mr. and Mrs. W. H. Zabel of that city, and William Victor Lieske, Wilmot, Wis., son of W. F. Lieske, Eau Claire, Wis., were joined in marriage.

Mr. Lieske who is well known in Kenosha county, has taught in the Wilmot High school for the past six years and will resume his teaching in the mathematics and science departments there when the fall term begins.

In addition to his teaching duties he has taken a prominent part in the other school activities, having had charge of all athletics—baseball, football, track and basketball.

He is a graduate of the Eau Claire Normal school.

The former Miss Zabel is a graduate of the Winona Teachers' college and has been teaching at Zumbrota, Minn.

The ceremony which united the couple took place at the home of the bride's parents, the Rev. Theodore Schoewe officiating.

Mr. Lieske and his bride will be at home in Wilmot after September 4.

Wilmot Graded School.

Wilmot Grades will open on Tuesday, September 3, with Miss Dorothy Schooley, Janesville, as principal; and Miss Grace Deales, Kenosha, in the primary department. It will be Miss Schooley's second year in Wilmot, and Miss Deales' third.

Ships' Papers.

Ships' papers are documents required to be carried by a merchant ship, such as: Register, charter party if chartered, log book, bills of lading, invoices, manifest, clearance papers, muster roll, shipping articles, bill of health, bill of sale (if ship has been sold by citizens of one country to citizens of another) together with consular certificate, certificate of inspection, officers' licenses, passenger list, if any are carried; license to carry on a particular trade.

Bacteria Strengthens Pottery.

Bacteria in clays make them stronger and more workable for pottery manufacture, tests have shown.

Two-Mile-a-Minute Train

Drawn by the first scientifically streamlined steam locomotives, reputed to be the fastest in the world and capable of speeds of over 120 miles an hour, two brand new six car "speed-lined" trains named Hiawatha, will dash daily over the rails of the Milwaukee Road between Chicago-Milwaukee and St. Paul-Minneapolis traveling 410 miles in 390 minutes. Pictured above: (1) Milwaukee Road new type steel day coach. (2) Beaver tail parlor car used on rear end. (3) Streamlined oil-burning steam locomotive. (4) Section of new air conditioned day coach. (5) Refreshment hour in the cafe.

Habit of Somaambulists

Somaambulists may speak without acting, common in children and not usually considered somaambulistic; act without speaking, the most common type; act and speak, more exceptional; and speak and have the senses of touch, sight and hearing. The last class merges into hypnotism.

Earthworms Help Soil

Earthworms or angleworms, though much despised by the gardener when appearing on the lawn, play a most important part in nature. They are most abundant in rich soils, where they contribute toward a good physical condition of the soil.

Insignia of Army Chaplains

A Christian army chaplain has a silver Latin cross, one inch in height. A Jewish chaplain has a double tablet bearing Roman numerals from 1 to 10, surmounted by two equilateral triangles interlaced, all silver, one inch in height.

Actual facts and figures about Gas Heating costs

Thousands of families have had months of actual experience with gas heat. They have had time to compare and decide. They prefer gas heat. Read these typical statements and learn why.

THERE'S no doubt of it! Every day more and more people are cheering the advantages of gas heat. Thousands of families, after two heating seasons, are more enthusiastic than ever. They have had time to judge for themselves whether or not gas heat delivers what it claims it will. And they have decided in favor of gas heat!

Houses are free of soot and grime. No dirty, smudgy walls. No soot-streaked curtains and drapes. No one in the house has suffered aches and pains in shoveling, shaking grates, hauling ashes. Thousands have discovered how clean homes can be kept during a long heating season, how leisurely heating tasks can be taken. Gas heat is automatic. It requires no attention, night or day, other than just the mere flip of a switch on the thermostat. That's all there is to attending gas heat. No more worry or trouble than that.

Many people have said that gas heat, at any cost, would be indispensable. Yet at its present reasonable cost gas heat is tremendously attractive for every home. Investigate gas heat now. Learn how simple it is to try gas heat—how little it costs when you consider all the joys it brings into your home.

Get in touch with your nearest Public Service office for complete details and for free accurate estimate of what it will cost to heat your home with gas.

"We are fully satisfied. Gas heat has relieved the family of considerable worries!"

Mr. Edward A. Hintz, 3625 Elmwood Ave., Berwyn.

News of

ANTIOCH and Vicinity

HORTON FAMILY REUNION HELD SUNDAY

Eighty persons were present at a family reunion of the Horton family held at the home of Mr. and Mrs. Emil Risch Sunday. Mr. Henry Horton, 84, and Mrs. Loannah Shay, 82, were the two oldest ones there. A lovely dinner was enjoyed. Guests from out of town were: Mrs. Loannah Shaw, Quinnsboro, Michigan, William Horton, Jr., Crown Point, Indiana, Mrs. Flora Horton, Mrs. Fred Bowers, Mrs. Al Flynn and daughter, Erma, and son, Orville, all of Chetok, Wisconsin, and Mrs. Alfred Hansen, Jr., and daughter Violet, of New Auburn, Wisconsin.

MRS. CHASE ATTENDS VETERAN CELEBRATION AT SPRINGFIELD

Mrs. Paul Chase, eighth district director of the American Legion Auxiliary, and delegate of the Antioch unit, attended a buffet luncheon given in honor of the Department and District officers of the American Legion Auxiliary at the Governor's Mansion in Springfield, on Veteran's Day, August 18. The afternoon was spent in watching the drum and bugle corps competition on the fair grounds. Mrs. Chase will leave Friday for Quincy where she will attend the Department Legion Convention.

MRS. GNAEDINGER IS HOSTESS TO COUNTRY CLUB LADIES

The Channel Lake Country Club Ladies were entertained at the home of Mrs. E. J. Gnaedinger at Lake Marie, Tuesday afternoon, with Mrs. M. J. Manerman as assistant hostess. Several tables were filled with bridge players. Mrs. N. S. Mills and Mrs. Ray Reichers were prize winners. Mrs. William Henderson was awarded the guest prize. The club will be entertained next Tuesday at the home of Mrs. George Bayrd at Lake Catherine.

VIEZENS CELEBRATE 54TH WEDDING ANNIVERSARY

Mr. and Mrs. Paul Viezens celebrated the 54th anniversary of their marriage at their home Tuesday and entertained several guests. Among those present were: Mr. and Mrs. Harry Vieven; Mr. and Mrs. H. Hattendorf; Mr. and Mrs. Alberta Hannan; Mr. and Mrs. Arthur Loesche and daughters; Mr. and Mrs. Roy Matthay; Mrs. Thilo Bischoff; Mrs. Ruth Korn and son; and Mrs. Dorothy Rothe.

CALKINS CELEBRATE WEDDING ANNIVERSARY

Mr. and Mrs. J. J. Calkins celebrated their 25th wedding anniversary at a high mass last Saturday at St. Peter's church. They were attended by their eight children and a few friends. Their oldest son, Father Roy was the celebrant of the mass. Mr. and Mrs. Calkins are from Chicago and have been the guests of Mr. and Mrs. William Gifford at Channel Lake for the last three weeks.

MISS HAWKINS ENTERTAINS AT REUNION PICNIC SUNDAY

Miss Ireta Hawkins entertained all of her sisters and brothers at a picnic dinner and swimming party Sunday at Lake Marie. Those present were: Mr. and Mrs. Ernest Olson and children, Mr. and Mrs. Ito Grutzmacher and son, Lytle, of Chicago, Mr. and Mrs. Charles Hawkins and three children of Grayslake, Orville Hawkins, Mary Hawkins and friend, Russell Longman of Trevor, Wis.

HARRISONS CELEBRATE 34TH WEDDING ANNIVERSARY

Mr. and Mrs. Andrew Harrison celebrated their thirty-fourth wedding anniversary at "The Home Tea Room" on Lake Street, Wednesday evening with a 4:30 dinner. The evening was spent socially with reminiscence. Those from out of town attending were: Mr. and Mrs. Nathan Burgett, Miss Grace Burgett and George Edmund of Hebron and Mr. and Mrs. James Todd of Richmond.

HENNING'S RETURNS FROM HOSPITAL

C. E. Hennings has returned from the Burlington hospital where he has been under observation and treatment for the past several weeks. He is improved in health, but as yet is unable to assume active management of his business. Physicians advised several weeks of rest.

MRS. KELLY ENTERTAINS BRIDGE CLUB TUESDAY

Mrs. Clair Kelly entertained the members of her bridge club Tuesday afternoon of this week. Those winning prizes were: Mrs. William Kohlman, Mrs. Frank Wood and Mrs. William Osmond.

MR. AND MRS. DRURY PARENTS OF DAUGHTER

Mr. and Mrs. Ben Drury are the parents of a 4 pound baby daughter born Tuesday, August 20th, at their home south of Antioch.

Miss Helen Goodman and George Goodman of Edgerton, Wis., spent Wednesday in Antioch, and called on their brother, Charles, who underwent an operation for appendicitis at St. Theresa Hospital in Waukegan Tuesday evening.

Daylight Saving Time.
9:30 Church School Sessions.
10:45 Morning Worship Services.
7:00 P. M. Epworth League Service.

CHRISTIAN SCIENCE CHURCHES

"Soul" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 18.

The Golden Text was, "I will set my tabernacle among you; and my soul shall not abandon you. And I will walk among you, and will be your God, and ye shall be my people" (Lev. 26:11, 12).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "O bless our God, ye people, and make the voice of his praise to be heard: Which holdeth our soul in life, and suffereth not our feet to be moved" (Psalms 66:8, 9).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "If it is true that man lives, this fact can never change in Science to the opposite belief that man dies. Life is the law of Truth, and Soul is never without its representative. Man's individual being can no more die or disappear in unconsciousness than can Soul, for both are immortal" (p. 427:1-7).

CHRISTIAN SCIENCE SOCIETY

955 Victoria Street
Antioch, Illinois
Sunday School—9:30 A. M.
Sunday Morning Service—11 A. M.
Wednesday, Eve'g. Service—8 P. M.
A reading room is maintained at the above address and is open Wednesday and Saturday afternoon from 2 until 4 o'clock, and Wednesday evening from 7 until 9 o'clock.

ST. IGNATIUS EPISCOPAL CHURCH

The Rev. J. E. Charles
10th Sunday after Trinity, August 25
7:30 A. M. Holy Communion.
11:00 A. M.—Morning Prayer and Sermon.
There will be no services at St. Ignatius Church on Sunday, Sept. 1st. Services will be resumed at the regular hours on Sunday, September 8th.

Hard to Tell Sex of Beaver

Sex identification of beaver is virtually impossible, except by dissection, and many veteran trappers who are ignorant of that circumstance identify beaver erroneously. It is the castor or scent glands of the beaver that are to be found on the animal while the glands of both sexes are within the body.

No Barbed Wire in Detroit

There is a Detroit city ordinance prohibiting the use of barbed wire fences. It says in part: "No person shall construct or maintain a barbed wire fence partially or wholly around any area in any street, or in, on or along any street, or in front of any public square or place."

The Cathedral of Cologne

The consecration of the great Cathedral of Cologne, Germany, was held in 1248. In 1417 work ceased and was interrupted for 400 years, the structure being completed in 1880. The cathedral is considered one of the finest examples of Gothic architecture in Europe.

Invention of Friction Match

The first true friction match was not invented until 1827 by a man named John Walker of Stockton-on-Tees, Durham, England. Ignition of sulphur and phosphorus by friction was discovered by Götfrid Haukwitz in 1830, but it was 150 years before this discovery was applied to matches.

Trains Stopped for Quinine

When the first railroad trains passed through Chillicothe, Ohio, the conductors were accustomed to stop and call out to the passengers, "Twenty minutes for quinine." This shows the prevalence of malaria in the lower Seloto valley in the early days and the measures taken to prevent its spread.

Danger to Animals From Weeds

Certain poisonous plants do not always carry the same degree of toxicity, or deadliness. Normally, they may be safe for animals to eat, but under certain growth and climatic conditions they may become extremely toxic. Other plants may always have some poisonous properties present.

Personals

Messrs. W. F. and C. H. Ziegler are entertaining their sister and brother-in-law, Mr. and Mrs. H. L. Merry of Rome City, Indiana, this week.

George Bohler, who has spent the past two weeks with his aunt and uncle, Mr. and Mrs. Homer Oaston, returned to his home in Carlin, Ill., Tuesday.

Mrs. Rella Grutzmacher and son, Lytle, of Chicago spent last week visiting with Mr. and Mrs. William Runyard and Mrs. Grutzmacher's sister, Miss Reta Hawkins.

Dr. Rosen, Reg. Optometrist of Chicago, will be in Antioch every Monday from 10 to 4. Office at 1012 Main street. For appointment call Antioch 201-J. Will call at your home without extra charge.

Mr. and Mrs. W. H. Quin and Mrs. Helen Alexander of Waukegan, and Mr. and Mrs. W. E. Lels of Sioux City, Iowa, were guests of Mrs. Elberta Straghan Sunday afternoon.

Mrs. Richard Pilschman of Milwaukee, Wis., was the guest of Mrs. Elberta Straghan the past week and was also calling on other Antioch friends. Mrs. Pilschman before her marriage was Miss Ada Buttrek and was a resident of Antioch.

Mr. and Mrs. L. G. Strang, daughter, Doris, and son, Robert, returned Tuesday after a two weeks' vacation trip spent with relatives in Iowa and South Dakota.

Wm. Van der Linde of West Palm Beach, Florida, arrived here Monday for a few days vacation with Antioch friends. Mrs. VanderLinde who has spent several weeks here at the home of Mr. and Mrs. Burt Anderson, will return to Florida with her husband next week.

Miss Virginia Florin of Pettie Lake accompanied by her sister-in-law, Mrs. Earl Florin are making an indefinite stay at Niagara Falls.

Mrs. Marie of Chicago and New York, a house guest of the Charles W. Anderson's at Pettie Lake, was called to Chicago by the sudden illness of her daughter-in-law.

Mr. and Mrs. Charles W. Anderson of Pettie Lake were week-end guests of Mr. and Mrs. Roy M. Hutchison, at their summer home at Eagle Lake, at Bloomingdale, Michigan, returning home Tuesday afternoon.

Rev. and Mrs. J. E. Charles are leaving Sunday for a trip to visit with relatives at Winnipeg, Canada.

Mrs. W. E. Brandt of Lake Catherine and Mrs. M. Gley of Chicago left this week for an extensive trip through Minnesota, South Dakota and the Black Hills. They will visit relatives in the Black Hills.

Mr. and Mrs. A. W. Aronson and Mrs. Beulah Grelve spent Monday and Tuesday with Mr. and Mrs. Elwood St. Pierre, at Donovan, Ill. Roy Aronson returned home with them after spending the summer at Donovan with his sister and husband, Mr. and Mrs. St. Pierre.

Mr. and Mrs. T. Barnett is visiting this week at the home of Mr. and Mrs. Clair Kelly.

Mr. and Mrs. Charles Schroeder and son of Berwyn were week-end guests of Mr. and Mrs. J. T. Knott.

Mrs. M. Doyle and Miss Ellen Ivers who spent the past week with Mr. and Mrs. John Doyle returned to Chicago Tuesday. Mr. and Mrs. Doyle accompanied them to the city.

Mrs. Mollie Somerville entertained Mrs. J. W. Bernbaum, Mr. and Mrs. Richard Kernler and Mr. and Mrs. Earle Somerville over the week-end. Mr. and Mrs. L. O. Bright returned Wednesday from a week's vacation trip to Michigan. They were accompanied by their children and Mr. Bright's parents from Urbana, Ill.

Mr. and Mrs. F. R. King left Sunday for Bennington, Vermont, where they will visit their daughter and husband, Mr. and Mrs. Gilbert Pierce. Mr. and Mrs. Swan Christensen entertained Mr. and Mrs. Oliver Vanderpoel and daughter, Ila Jane and Mrs. Jennie Hibbard of Bruce's Lake, for dinner Tuesday evening.

Mr. and Mrs. Andrew Harrison spent today (Thursday) at the Nathan Burgett home at Hebron.

Clocks and Watches

The Chinese claim to have invented the clock about the year 2000 B. C. There is a general belief that Gerbert, who afterward became Pope Sylvester II, made the first mechanical clock for the Magdeburg cathedral in the year 990 A. D. Before that time, sundials, sand-glasses and clepsydras (water clocks) were employed, also notched candles and graduated lamps. Peter Heilen or Heile of Nuremberg is given credit for the invention of the main spring which made watches possible, about the year 1500, and one of the oldest watches in existence was made in that city in 1500.

The Vendetta

Among savages the unit of society is not the individual but the clan or kindred. When a member of the clan has been slain, the others do not say: "The blood of so-and-so" but "Our blood has been slain." This is the origin of the vendetta, as practiced up to recent times in Italy and by savages everywhere.

NATURAL TONES ARE FAVORED JUST NOW

Strong Colors Appear in All Summer Fabrics.

Natural tones are outstanding. They appear in every type of washable sports silks, linens and cottons. They are followed closely by the strong peasant tones, such as gold, vivid pinks, clear strong greens and blues.

"Sweetest" colors, combining strong and light tones such as mauve and wine-red, two tones of blue, deep and light pinks, are taking hold quickly. The prevalence of two-tone treatments makes it easier to assemble a smart accessory ensemble without having to match the dress, giving that appearance of studied casualness of which our English sisters are past masters. Some printed silk crepes and end-to-end effects are used, but in the main the monotonies have it.

Washable silk shirtings are to be found in abundance, in the regulation striped effects and in end-to-end weaves. Using the fabric with the stripes running in two directions is a favorite theme. Silk gingham also are used, and fall into the same type group. A navy and white dress, striped diagonally, with an off-white jacket, is typical.

CHAMMOIS VOGUE

By CARMEL NICHOLAS

The idea of wearing chammois hat and jackets and various accessories of chammois is making a big appeal out in the Hollywood colony where film beauties set the pace in high fashion. Here we see Jean Harlow wearing a perfectly stunning suede jacket. Note how artfully it is paneled, thus inducing an interesting fitted line. The pockets are triangular shaped which, together with big ball buttons, lend a heap of chic. The jacket is collarless so that it can be worn with a scarf. Jean is carrying a soft shirred calfskin bag with barrel shape lock. Below in the picture is an ensemble of chammois hat, gloves and jacket which Gertrude Michael elects to wear with her navy blue dress which has polka dots and a huge ruffy jabot.

Sports and Evening Wear for the Summer Holiday

To sail away for a summer holiday is a glorious adventure at any season, but to sail away with the right clothes is very near perfection, an easy thing to achieve if one simple rule is followed.

Take only two types of clothes, sports and evening. Sports clothes are the backbone of the proper cruise outfit. Clothes to walk the deck in, to play games in, to lunch in, play bridge in.

Evening clothes added to the sports things complete the cruise wardrobe list. Everyone dresses for dinner on shipboard, so take five or six evening frocks, two wraps, abetings, slippers and bags. Evening dresses are floor length, often without trains; sometimes high in back and low in front with covered shoulders or puffed sleeves.

Novel Ornaments

A novel ornament for informal wear consists of two gold clips which are fastened on either side of the neckline; the clips are connected with a braided gold chain. The resultant effect is almost that of a necklace.

STYLE NOTES

Again fancy turns to printed satin. Chiffon gowns are lavishly pleated. Quilted taffeta coats are smart for summer.

Dotted swiss accessories are fashion's latest whim.

The hair for violet and lilac tones is widespread.

Composed raincoats (skirt and jacket contrast) lead in the mode.

Ruffles and more ruffles animate youthful summer evening frocks.

State Municipalities Urged to Adopt Own Traffic Ordinances

Enactment of ordinances by cities and villages in Illinois as a means of removing the chaos caused by passage of the new state vehicle code was suggested today by H. H. Bailey, Chairman of the Police Committee of the Suburban Area and Country Towns association. In an open letter to the Mayors of all Illinois municipalities, the legislature, in passing the new code, through the simple expedient of making jail sentences, in addition to fines, possible for punishment, automatically divested justices of the peace and police magistrates of final jurisdiction in cases filed under the state law for minor traffic violations.

"Since speeders and reckless drivers must now post bond and be bound over to the grand jury," Mr. Bailey said in his letter, "the net result is likely to be an absence of prosecutions, except in the most aggravated cases and a general lessening in the pressure to promote careful driving. This condition can be materially improved by cities and villages taking advantage of their right to regulate traffic on their streets by ordinance. So long as the provisions of the ordinances are not inconsistent with the state law they are valid, according to our advice. Oak Park and many other cities have shown the way by adopting ordinances containing the same rules as those laid down by the state law. When violations are committed within the limits of the city, arrests can be made by any police officer, charges can be filed under the ordinance and the cases handled by justices of the peace or police magistrates within the city to immediate and final conclusion."

Antioch Aces Scalp Millburn Nine, 13-4

Doubt following the 110 baseball game between the Antioch Aces and Millburn which was played earlier in the season was settled decisively Sunday with the Antiochians pounding out a 13 to 4 victory.

Bagel, the Antioch slasher, limited the Millburn bats to 7 scattered hits, while his mates, with Lion Fox leading the box score with a lusty triple over Left-Fielder Denman's head, hammered Hughes and Brogan for 14 safe pokes. Hughes fanned 11 Aces while Bagel watched 9 opponents strike-out.

Sunday the Antioch Aces entertained the North Side Merchants of Waukegan at the former's grounds on West Lake street. Lineups:

Antioch Aces (13)		AB R H B	
Hostetter, cf	4	1	1
Hughes, lf	5	3	4

PLENTY OF FEED BRIGHTENS DAIRY FUTURE IN STATE

With plenty of good roughages and grains being produced in Illinois this year, dairymen can forego the skimpy rations of drought times and again feed their cows more profitable and better balanced combinations, says C. S. Rhoads, dairy husbandry specialist at the College of Agriculture, University of Illinois. Those who cull out their lowest producing cows and use the plentiful feed as a basis for adequate rations will probably be able to make a reasonable profit during the coming winter. With milk cow numbers now 6 per cent less than the record number a year ago, the six-year expansion in the nation's dairy herds has been ended. Continued close culling of lower producing cows and the feeding of better rations will further strengthen the dairyman's position, it is believed. Not since 1927 has the state had a hay crop as large as the full-cultivated harvest of more than four million tons for 1935.

Truck Tire Explodes! Tears Wilmot's Hand

Clifford Rasmussen, 22, of Wilmot, was taken to Victory Memorial hospital in Waukegan, Sunday morning, suffering from a crushed hand as the result of an accident in Antioch. His left hand was badly crushed when one of the rear dual tires on his gravel truck exploded as he was pumping it up at a filling station. Nearly all of the bones were broken and the tendons were torn. Surgeons are attempting to avert the necessity of amputation, performing an operation Sunday. Rasmussen had his left hand on the dual tire as he was pumping it up.

County Eastern Star to Hold Big Picnic at Wauconda Sunday

The members of the eighteen chapters of the Order of the Eastern Star County and the neighboring vicinity will hold a picnic in Cookes Grove on Bangs Lake, Wauconda, announces Mrs. Martha Hinton, worthy matron of the Antioch chapter. All members and families have been invited to attend the festivities which will begin at 11 o'clock and bring basket lunches.

Mundelein Farmer Wins "Neat Farm" Pure Milk Contest

Earl H. Kane of Mundelein, who operates a dairy farm on rural route 2 from that village, scored better than 90 per cent to win the "Neat Farm" contest "Award of Merit" which was sponsored by the Pure Milk Association.

JADED WARDROBE IS EASILY SPRUCED UP

There are endless possibilities of what one can do for a jaded wardrobe, and we are always on the lookout to discover things that can be added to an old dress to give it another season's wear. This year it is a change of jacket. Patterned ones contrast with the plainness of the gowns. The idea of putting bright prints on top of dark dresses is a welcome change from the all-print ensemble that begins to pall after so many months of wearing. A short jacket makes a dinner dress out of one that would otherwise be extremely formal. When it is a wrap that is to be removed it is swifter to the hips or fitted to the floor. Anything goes in the way of a design for these new wraps, the smallest of pin dots to large floral patterns that are vibrant with life and exotic colorings. If the dress is white or a pastel, a print with a dark background is chosen for contrast.

Fall Woolen Card Gives

Two New Groups of Colors
The regular edition of the 1935 fall woolen card, portraying 48 colors in woolen fabric, has just been released to members of the association. It was announced by Margaret Hayden Horke, managing director. In addition to basic shades, the card contains two color groups designated as "Pastels" and "Touchdown and Ski Colors."

The first-named collection consists of hazy pastels and rich autumn tones especially suitable for dresses and children's wear. The "Touchdown and Ski Colors" have special merchandising appeal for the football and winter sports seasons.

Choice of Belts

Pleasant, patent leather and colored leather belts are fashioned on wide designs—sometimes clasped snugly around the waist in a model which resembles that worn by Tyrolean mountaineers, or again crushed softly around the waistline like a sash.

As Fish Smell and See

There is some detection of the power of smell in fishes, but this sense is not independently and acutely developed. Likewise the eyes, notes the Washington Star. While well developed, eyes and pupils are absent, it is not believed that vision, at least acute within limits, has advanced to a degree corresponding to the high position in the animal kingdom held by fishes. Of particular interest in connection with the eye of fishes is the fact that there is no fixed point of focus. Fishes do not see objects, even in motion, at great distances.

SCOTT'S SCRAPBOOK

By R. J. Scott

No Chinese Alphabet
The Chinese language has no alphabet, for it is not a letter, but a syllable language. Each written character is the equivalent, not of a sound, but of a word of one syllable, for no Chinese word has more.

Breathing in Fishes
Breathing in fishes, as in higher forms, must be carried on constantly, the water passing through the mouth, then on back between the thin scales of the gills and out the opercular opening to the exterior.

"Long" Popular Name
The word Long appears in the names of 91 post offices in the United States, the list beginning with Long, Alaska, and ending with Longworth, Texas.

The Natives of Chosen
The origin of the natives of Chosen is uncertain. Ethnologically, they are unlike the Japanese, Chinese or Mongols. In features they frequently resemble Europeans, even in coloring.

Kathleen's Jelly

By ALICE BLAKE

GLAMOROUS Kathleen Burke may be the panther woman to those who remember her brilliant performance in "The Island of Lost Souls," but like many other screen favorites, she plays her "opposite" in the movies.

For in real life, Kathleen is domestic, loves her kitchen, and adores making jelly. What is more, she proudly serves her dinner guest with her own, favorite jelly. Would you like the recipe? Here it is:

Ripe Grape Jelly
4 cups (2 lbs.) juice
7 1/2 cups (3 3/4 lbs.) sugar
1/2 bottle fruit pectin

To prepare juice, stem about 3 pounds fully ripe grapes and crush thoroughly. Add 1/2 cup water, bring to a boil, cover, and simmer 10 minutes. Place fruit in jelly cloth or bag and squeeze out juice. (Concord grapes give best color and flavor. If Malagas or other light-skinned grapes are used, use 3 1/2 cups grape juice, and add strained juice of 2 medium lemons.)

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 1/2 minute. Remove from fire, skim, pour quickly. Pack in hot jars at once. Makes about 11 glasses (8 fluid ounces each).

You Ready?

ARE you ready for the oyster season? September is the month when these succulent bivalves are once more eaten with avidity all along our coasts. We have never had a real oyster lover who would admit that he had had enough oysters at any one sitting, and that is why we counsel an early start.

But you notice that we said "all along our coasts." Long-standing custom dictates that those living close to the oyster beds should refrain from eating them during the hot summer months, and the oyster farmers are content with this arrangement both because it makes oysters an annual treat when the month with an R comes in, and because it is in winter that oysters are at their best.

Oysters Always Available

The people further inland, however, have the joke on their coastal cousins. They can go quietly on enjoying their oysters at any season of the year, oysters that have been gathered in winter and safely encoined in tin cans which keep them just as good as at the moment when they are put in.

Oyster Stew: Scald three cups milk in a double boiler. Heat the oysters from a 5-ounce can to just below boiling, and add to scalded milk. Blend with one tablespoon butter and one tablespoon flour, rubbed together, season with one teaspoon salt and paprika, and last add one-fourth cup cream. Serve at once with oyster crackers. Serves four.

In Crustades and Pies

But oyster stew is not the only dish, by any means, that can be

Forest Management in Canada
Under intensive methods of silviculture the forests of France produce, on the average, 44 cubic feet of timber per acre each year. In Germany the average is 60 cubic feet per acre. While such intensive methods are inapplicable in Canada at present, it is estimated by the forest service department of the interior, that, if the accessible and productive forest area in Canada were managed so as to produce even 10 cubic feet of wood per acre, it would practically replace the present annual depletion through cutting, fire, and disease.—Montreal Herald.

Prominent State Prisons
The state prisons of Michigan, Illinois and Ohio are located at Jackson, Mich., Joliet, Ill., and Columbus, Ohio.

made with these delectable oysters. Try, for instance, the **Oyster and Mushroom Croustade:** Drain a 5-ounce can oysters and a 4-ounce can mushrooms. Make a sauce of two tablespoons butter, two tablespoons flour, and the combined liquids from the oysters and mushrooms. Season with salt, add one slightly-beaten egg mixed with one-half cup cream, pour over the oysters and mushrooms and heat in a double boiler. Serve as an entrée in very tiny croustades or pour over tiny apple bakings powder biscuits. Serves eight.

Chicken and Oyster Pie: Make a sauce of two tablespoons butter, two tablespoons flour, the oyster liquor from a 5-ounce can and one and a fourth cups thin cream or top milk. Season to taste with salt and pepper. Add the oysters, the contents of a 6-ounce can chicken and one-half cup cooked diced celery, and pour into individual ramekins. Cut rounds of toast large enough to cover tops, place one on top of each, and sprinkle with grated cheese. Place under broiler flame until cheese is melted and bubbly. Serves four.

In Maryland Style

Maryland is famous for its sea food and for its appreciation of delicate fish dishes concocted by its famous chefs. Here is one of the ways in which they serve oysters there.

Oysters a la Maryland: Brown one and a half tablespoons butter in a pan, add one and a half tablespoons flour, and brown again. Then add one and a half cups milk slowly, stirring until smooth. Add three teaspoons anchovy paste, one-half teaspoon salt and a few grains paprika. Scald the oysters from a 5-ounce can, arrange on buttered toast, and add this liquor to the sauce. Add one slightly beaten egg yolk to the sauce, stir till hot and pour over the oysters. Makes four servings.

Jews Change Language

In the course of their history, the Jews have many times changed their language. In the days of Christ Aramaic was their daily language, the Hebrew of the Bible being already a written language only. Aramaic and Greek were retained up to the Soreth and Elgh centuries when largely replaced by Arabic.

Dried Fish Used as Candle
In British Columbia waters there is a fish called the entelon, or candle fish, because, when partly dried, it can be used for lighting purposes.

Value of Liver in Diet
Liver supplies vitamins A, B, D and O, as well as protein, iron and phosphorus.

Lights of New York

by L. L. STEVENSON

New York's "slave markets" are in the Bronx. Every day colored women, old and young, line up at Westchester avenue and Southern boulevard and at Prospect avenue and East One Hundred and Sixty-first street, to sell themselves into temporary bondage at so much an hour. Ragged, down-at-the-heel, hungry, they await the appearance of possible purchasers of their services sometimes with chatter and laughter but more often with grim silence. There is no assurance of employment and the walk to and from Harlem is long, especially when the stomach is empty and the shoes so thin that feet all but touch the concrete. The "slave market"—those who line up and wait supplied that name—is the last hope. If an employer doesn't come along, there will be more hunger and possibly eviction, since Harlem landlords do not care to wait for their rent.

Those who make purchases at the "slave market" are housewives of the vicinity. Shrewd in bargaining, desiring to make every penny count, their offers are always low. Follows an auction of sorts. But the one with work has all the advantage. Household tasks may await another day but hunger—and landlords—won't. In the end, there is capitulation since need makes it seem better to take from 12 1/2 to 15 cents an hour for hard and heavy work than to go back to Harlem penniless. Also the employment is only temporary and there is always the hope—seldom realized but hard to kill—that there will be a change for the better.

One of the biggest reasons for the existence of the "slave markets" is the fact that there are practically no jobs for colored men. Jobs such as porters, waiters, washroom attendants, messengers, etc., that once were filled only by colored men have been taken over by whites since the depression. Harlem mothers and wives, as well as single women, have always worked. But present conditions have placed an additional burden on them. So they line up and wait at the "slave markets."

Speaking of colored people, there was the little girl to the school out at Long Island who told her teacher her name was "Fee-mal-ee" Jones. Asked to spell the first name, she replied, "Female." It seems that when she was born, her parents were unable to decide on a name, so at the hospital the blank was filled in (Female) Jones. The parents taking that as official, from then on called her, "Fee-mal-ee."

Related the foregoing to a friend whereupon he recalled a somewhat similar instance, which concerns a woman quite well known among the Seven Mile. In connection with birth proceedings, she had to obtain a birth certificate. Trouble ensuing in looking it up, she explained that her parents had first decided to call her Olive. But because she was so fair-complexioned, they had changed the name to Lillian, after Lillian Russell, the "air, fairy" of that day. And search disclosed the fact that she was merely listed as "Female."

Dealing a bit more with names, it seems that bartenders, barbers, waiters, pullman car porters and others are generally called by any name that comes to the mind of the patron. A lot of places in New York have solved that problem by neat plaques which announce "George now working," or whatever the name of the man behind the stick may be. So when a patron addresses the barman as, "Mac," he merely points to the sign.

Plea Made for Snakes

That Destroy Rodents

Topeka, Kan.—Non-poisonous snakes are a boon to farmers and worth many dollars each for the work they do in killing rats, weasels and other rodent pests, according to D. P. Beaudry, director of the Topeka Reptile Study club.

Beaudry, in a plea that harmless snakes be spared, said that when a snake is seen near the farm buildings it usually is trailing some rodent.

"If food is scarce a snake occasionally may kill a small chicken," Beaudry said, "but a rat or weasel will kill more small chickens in an hour than a snake will in years. A snake more than earns an occasional chicken for the good work it does in killing pests."

House Built in 1793 Razed
Winston-Salem, N. C.—A 142-year-old landmark has been torn down here. It was a nine room house built in 1793 by Romeous Teah. Its timbers, all hand hewn, were reported "remarkably preserved."

Red Tape Is Fatal

San Diego.—Red-tape, which annoys people, killed a 14-foot python. With five other pythons the snake arrived from Singapore for the Pacific International exposition. The bills of lading were sent in error to Chicago and customs officials would not let the snakes off the boat. By the time the bills of lading arrived the 14-foot python was dead. The others were sluggish and thin, but will live.

FRENCH FEAR CURSE IN MAN MADE GOLD

See Civilization's Fate at Inventor's Mercy.

Paris.—Will the world welcome the invention of a powerful death ray? How will men greet an invention which will permit anyone to produce gold at home cheaply?

Will not these discoveries mean the end of our civilization? These are questions that Frenchmen in all walks of life are asking themselves these days as the result of the announcement of Jan Dunikowsky, Polish engineer and "modern alchemist," that he has achieved the two discoveries. He has already proved to one expert his ability to make gold cheaply, and he has demonstrated to journalists the effectiveness of his death ray, on a reduced scale.

Everything in France ends in laughter, but the French amusement at Dunikowsky's original experiments is beginning to be turned into a feeling of uneasiness.

During these two years that Dunikowsky spent in a Paris prison for having falsely claimed that he could produce gold, the public laughed good naturedly at him and looked upon him as just an eccentric. During those two years Dunikowsky was allowed to leave his cell and visit a city laboratory, where he worked to prove that he was not a swindler.

Takes Refuge in Italy

After serving his time, Dunikowsky took refuge with his family in a villa at Saint Remo, Italy, where he continued his experiments. He wanted eventually to prove that he was not a fake and then have his conviction in the French courts reversed.

Recently, Maître Legrand, his attorney, announced that Dunikowsky had achieved his goal. Monsieur Bonn, a chemist attached as expert to the French law courts, went down to St. Remo. He spent six hours in Dunikowsky's villa applying the Pole's method to auriferous earth. At the end of the experiment, Bonn issued a statement declaring that in his opinion the technique devised by Dunikowsky did in fact extract a larger quantity of gold from the earth than would be possible by methods now in use.

Bonn said no fraud was possible. He made a careful examination of the apparatus beforehand. The earth brought by Bonn was divided into three lots. Dunikowsky's "Zeta" rays and then complicated chemical processes were used on the first lot of earth, as the result of which two small globules of gold emerged.

The second lot produced no gold because it was not submitted to the Zeta rays even though it underwent the same complicated chemical processes as the first lot. The third lot was submitted to the rays but to no further treatment. This lot is being sent to Paris for examination.

Tells How Rays Work

Dunikowsky explained the action of the Zeta rays as follows:

"The bombardment of the gold by the rays causes it to mature from its 'embryo form' in a quarter of an hour instead of in the great number of centuries required for this transformation hitherto."

Bonn says the Dunikowskys have been living by their gold production for the last two years.

Not content with his gold making, Dunikowsky suddenly offered to France the invention of the death ray in exchange for his rehabilitation in a rehearing of the trial which condemned him for fraud in connection with his invention for extracting gold from auriferous earth. The same newspaper men who had been crowding into the villa to make gold now crowded back in again to see another demonstration.

Lives in Covered Bridge,

Woman Has 5 Addresses

Boston.—New Hampshire has a resident who lives in one place and has five addresses. To reach her by mail one sends a letter to Penacook. For a telegram the address is Bosworth. To find her in the telephone directory one must look under Salisbury. A visitor going to her home by rail leaves the train at Bagley. And all the time she lives in the town of Webster.

Her house carries a sign. "This bridge is closed by order of the court." She found the old covered bridge on private land, bought it, moved it to land she owned, reduced its length and fitted it to foundations already in place and put it in order for occupancy.

These Pigeons Jump to

Maturity in Four Days

Santa Barbara, Calif.—Pigeons jumped from babyhood to maturity in four days under pituitary gland treatments in an experiment at a hospital here.

Under normal growth pigeons do not develop lactical glands, the sign of maturity, until they are several months old. Birds six weeks old, just leaving their nests, developed the lacticals in four days when treated with the pituitary hormone.

Guinea pigs are next in line for speedy development.

LAKE VILLA

Miss Roseetta Koelstra of Wisconsin Rapids spent the past week with the Will Fish family.

Miss Belle Richards of Antioch called on friends here last Thursday.

The local fire department was called to the George Olcott home late Tuesday afternoon of last week when fire broke out in a haystack near his barn. It was not possible to save the hay, but the buildings were not burned. Spontaneous combustion was the cause, it was decided. Mr. and Mrs. Olcott were in Waukegan at the time, but the fire was discovered by the hired man who gave the alarm.

Miss Anne Petrie of Chicago spent Saturday and Sunday with her cousin, Mrs. Fred Hamlin.

The local R. N. A. camp held its regular meeting on Tuesday evening of this week instead of next week, the usual time, as that is the day of the annual Farm Bureau picnic which many of the neighbors like to attend. Kenneth Hart, cashier of the local bank, is back at work again. He has been absent for some time because of illness, but is much improved. Mr. Robertson will remain to assist for a time.

Mr. and Mrs. Peter Mork, who have been with their daughter at Twin Lakes, Wis., for several weeks, have returned to their home here.

Mrs. Mary Knappe, accompanied by her granddaughter, Miss Frances Knappe of Grayslake, visited her sister in Chicago on Tuesday and visited her sons and families at Grayslake a few days this week.

The work of the improvements at the church has been going on rather slowly, but it is now ready for plastering and finishing. It is planned to have a "bee" and a dinner to do much that is necessary, and the "Official Board" is asking for volunteer labor. The Board will hold a special meeting at the parsonage on Monday evening next week, and all are welcome.

Rain rather dampened the spirits of the Ladies' Aid Society last Saturday afternoon when they had planned to have a summer sale in the park. However, the food sale was conducted at the Peterson store and the other things were taken to the Ladies' Aid room, and a fairly good sale was the result. The ladies will try again next Saturday afternoon at the park when the goods will be on display if the weather is favorable, otherwise they will be at the Ladies' Aid room.

Mr. and Mrs. Walter Paske have sold their business in the "Cozy Inn" to Mr. and Mrs. McLaren who will continue the business in the same manner as it has been conducted, and Mr. and Mrs. Paske will continue to live in the Brompton cottage for a while at least.

Mr. and Mrs. Carl Seeger visited Mrs. Seeger's sister and family at Rockford on Sunday.

Mrs. Charles Kelly has had two nieces as her guests recently, one from Monmouth, Mich., and the other from Racine.

Mrs. R. H. Sherwood has been quite ill during the past week.

The play, "Here Comes Charlie," is coming along nicely to rehearsal. This is a splendid 3 act play to be presented on an open air platform or stage in the park on the evenings of August 30 and 31 for the benefit of the local church, by a strictly amateur cast, though all have been in a number of home talent plays and you are assured of a good entertainment. William Nelson and Edwin Knappe are two of the cast.

Mr. and Mrs. Charles Madison drove to Chicago on Saturday afternoon and their son, Bob, who had been a patient in the Passavant hospital there for several days for observation and treatment returned home with them.

Frank Nader was a Chicago visitor on Monday.

Buffaloes Followed the Grass

In the days before the white man, immense droves of humped buffaloes would leave Texas, Arizona and New Mexico in the spring of the year and leisurely follow the grass, probably into Canada. When cool weather came they would retrace their steps. Before the advent of the railroad, Texas cattle men following the buffalo's lead, drove their herds over the old Chisholm trail. They found that by adopting the tactics of the monarch of the prairie they would be assured of beautiful grass by driving about ten miles a day, starting when the grass reached the peak of its greenness in Texas.

The Percheron Breed

Some historians believe modern Percherons are mixed with Arabian blood introduced into La Perche by captive Arabian horses brought from the Holy Land during the crusades. Others say this had little if any influence on the Percheron breed, but admit that Arabian stallions were likely brought to France by homecoming crusaders.

Gulls Destructive

According to investigation by the bureau of biological survey, certain species of gulls are destructive to other birds. Among these species are the black-backed and herring gulls, which break up the nests of elder ducks, terns, smaller gulls and other local birds.

Diphtheria Centuries Ago

Diphtheria first was accurately described in 1765, but the bacillus of the disease was not found until more than a century later.

Hints for Motorists

By C. R. Strouse

Director, School of Automobiles, International Correspondence Schools

A easy way to clean spark plugs is to spray them thoroughly with carbon tetrachloride. A few minutes after spraying, the carbon will be loosened and can easily be scraped off. Then blow the spark plugs out with compressed air. A hand fire extinguisher is useful for spraying the liquid, but any kind of spray gun can be used. Carbon tetrachloride is inexpensive and can be bought at most drug stores.

Leaks in the gasoline tank can be stopped with shellac. Remove the tank, dry it out, then pour in shellac. Swish the shellac over all the surfaces and into all the corners. Drain off the shellac and let the tank dry before re-filling.

TREVOR

Mr. and Mrs. Ed Topel, Libertyville, Ill., were visitors at the Pete Schumacher home Tuesday.

Mrs. C. Shottliff and daughter, Ruth, were Trevor callers Tuesday afternoon.

Mrs. Alice Terpin and Miss Sarah Patrick spent Wednesday with their nephew, Byron Patrick and family.

There was a good attendance at the card party at Social Center hall on Wednesday afternoon. The next card party will be held August 23. Prizes and a lunch will be served.

Trevor was well represented at the Educational and 4-11 Club exhibit at Paddock's Lake on Thursday and Friday.

Threshing is about completed in this vicinity. The farmers are well satisfied with the yield of grain.

Mrs. William Evans, daughters, Mrs. Rohnow and Margaret Evans, and Robert Yopp called on Mrs. Tony Fredson and daughter, Gretchen on Thursday.

Mrs. Harold Mickle entertained her sister, Mrs. Hans Dietrich, Twin Lakes on Wednesday. In the afternoon they attended the card party at the hall.

Alfred Dahl was a business caller in Racine Wednesday.

Mr. and Mrs. Joseph Letzer, Sr., of Chicago and Camp Lake, called at the Pete Schumacher home Thursday.

Mrs. Susan Carroll and nephews spent the week-end with relatives in Chicago.

Mrs. Lizzie Hamer and daughter, Bernice Hamer, visited her sister, Mrs. Tillie Schumacher, Sunday.

Miss Beatrice Oetting, Oak Park, spent the week-end with the home folks.

Mrs. Joseph Smith accompanied Mrs. Arthur Runyard and sons, Chester and Vernon, to Kenosha Saturday evening.

Mrs. Gus Fanslaw and daughter, Marguerite, Chicago and Camp Lake Oaks, called at the Joseph Smith home Sunday.

A number from this locality attended the Ringling Bros. circus at Kenosha on Monday.

Leo Kaiser, Duluth, Minn., and Hellen Schaefer, near Bristol, called at the Chris Schaefer home Saturday evening.

Mrs. Jessie Allen and daughters left Monday morning for Essex, Ill., to spend a couple of weeks with her parents.

Mr. and Mrs. Harry McKay and children, Chicago, spent Monday with the former's parents, Mr. and Mrs. D. A. McKay.

Miss Bernice Longman and friend, Cross Lake, spent Wednesday with her mother, Mrs. Daniel Longman.

Karl Oetting spent Thursday in Chicago.

Mrs. George Hallett, daughter, Marguerite, Mrs. Helen Hallett, Mr. and Mrs. James Lamb and daughter, Betty Jane, Kenosha, called at the Joseph Smith home Wednesday evening.

Mr. and Mrs. Matt Sieber, Salem, were Trevor callers Monday evening.

Mr. and Mrs. D. A. McKay and niece, Miss Ruth Thornton were Chicago visitors Monday.

William Oetting, Channel Lake, was a Trevor caller Tuesday.

Betty Jane Martin, Waukegan, who is spending her vacation at the Charles Oetting home, spent from Monday until Wednesday with her aunt, Mrs. Homer Albertson, Silver Lake.

Thomas Schukhs, Cleveland, Ohio, called at Patrick sisters and Daniel Longman homes on Friday.

On Thursday, Mrs. Daniel Longman, son, Russell, and daughter, Mrs. Willis Sheen, motored to Walworth and visited Mr. and Mrs. Mort Neff. Mr. Longman returned with them after spending a few days with his sister and brother-in-law.

Theories About Cain's Wife

There are various theories about Cain's wife. Some students of the Bible claim Adam and Eve were not the first persons on earth but only the first named persons. Others regard the story of Cain as a composite of several traditions relating to different men named Cain who lived at different periods. Others suppose Cain's wife to have been a sister or perhaps a more distant relative. Genesis, chapter 4, verse 14, tends to support the first of these theories.—Detroit News.

Fiji Islanders Know Grief

Natives of the Fiji Islands, despite their savagery and low regard for human life, are known to die of grief, writes Anne Chidell, New York City, in Collier's Weekly. There are records of many cases in which both men and women, upon being permanently separated from their sweethearts, have developed what they call "dongal," which is nothing but love-sickness, and physically decline to the point of death.

Cause of Suicide

A predominant cause of suicide among both civilized and savage peoples, according to one authority, is an accumulation of aggressive, destructive instinct in the race which cannot find an outlet otherwise. Thus it is less in wartime than during peace, when there is no way to express the pent-up aggressive energy by killing somebody else.

Benedictine

Benedictine is a cordial containing varying amounts of sugar. Due to this variation, no definite statement can be made as to alcoholic content, but it usually contains 40 to 60 per cent by volume.

THE CREAM OF THE MARKET

WOMEN'S PAGE

Best Ways of Cooking Green Peppers

The small boy who said he liked "to stuff stuffed peppers" showed the best of taste. Few better dishes can be brought to the table, and in the whole list is none more attractive when properly prepared and served. Both as a food and an appetizer, the pepper is a valuable adjunct and should be frequently used.

Stuffed Green Peppers

- 6 green peppers
- 1 cup rice
- 2 tablespoons finely cut bacon
- 1 tablespoon finely cut onion
- 1 hard-cooked egg
- 1 raw egg
- 1 teaspoon salt
- 1/4 teaspoon paprika

Boil the rice as usual. Wash peppers, cut off stem ends, remove all seeds and white fiber and soak in cold water for 30 minutes. Remove and dry; fill with rice prepared as follows:

Put the bacon in frypan, add onion and fry until light brown; add 2 cups boiled rice, and hard-cooked egg, chopped fine, and heat through. Remove from fire and add the well-beaten raw egg, salt and paprika; mix well.

Fill into peppers; dust top with bread crumbs; place in deep pan; to hot oven 30 minutes. Or you can bake in individual ramekins.

Stewed Green Sweet Peppers

Cut the peppers in half lengthwise, then in quarters. Remove all seeds and white fiber; soak the peppers in cold water half hour; drain and put in saucepan. Cover with boiling water; add 1 teaspoon salt; boil 30 minutes; pour into colander and drain. Set the colander on plate and put in warm oven. Put in warm dish and pour over 1 tablespoon melted butter and dust with pepper.

This is very good with hamburger steak or meat loaf, especially if rice is used with the meat.

A Few Don't's for Care of Furniture

Don't use furniture polishes, oils or varnishes on upholstery leather. They will cause it to become sticky and to lose its lustre. When leather is in need of cleaning, use a damp cloth and a little castile soap. Rinse with another damp cloth and dry with a clean dry cloth—returning the original lustre by rubbing briskly.

Don't forget that moths will lay eggs under slip covers. When using them, remove them occasionally and brush the furniture as directed.

Don't use a carpet beater on upholstered furniture. The frequent use of the vacuum cleaner and the wheel broom will serve to remove all objectionable dust.

Don't fall to remove the loose cushions occasionally and run the hand in the space between the seat and the back. The usual collection of keys, coins, pencils, etc., that this practice will divulge will do the furniture no harm, but one often finds foodstuffs that are subject to decay.

Don't sit on spring edge seats. This practice constitutes an abuse and should be avoided.

Don't use the vacuum cleaner on down-filled cushions. It will pull the feathers through the covering. A careful brushing will suffice.

Don't allow household pets to lie on upholstered furniture. They may not only soil it, but cats, especially, will ruin the cover with their claws.

SUNDAY DINNER Suggestions

By ANN PAGE

If you had planned to have Baked Ham for Sunday dinner, it would be well to change to poultry or lamb. Fresh and cured pork continue to rise in price; broiling or trying chickens are moderate; lamb is of excellent quality and also moderately priced. There are many good values in fresh vegetables. Corn, peas, lettuce, tomatoes, and egg-plant are low priced. Fine cauliflower and green lima beans are coming to market. Potatoes of exceptional quality are selling at the lowest price in many weeks.

Many fruits tempt the appetite and pure seedless grapes and red Malaga, Bartlett pears, oranges, bananas and peaches. Then there are cantaloupes, honeydews, honeyballs, Persian and Casaba melons—it is difficult to make a choice.

Egg, butter and cheese prices remain about the same. Fish is to be had in great variety at attractive prices.

Following are three Sunday dinner menus at different budget levels, planned to use seasonable foods.

Low Cost Dinner
Fricassee of Lamb
with Potatoes, Onions and Carrots
Bread and Butter
Baked New Apples
Iced Tea or Coffee

Medium Cost Dinner
Lamb or Veal Roast
Browned Potatoes
Baked Tomatoes
Lettuce Salad
Bread and Butter
Cantaloupes
Tea or Coffee

Very Special Dinner
Grapes and Melon, Cup
Fried Chicken, Green Gravy
Mashed Potatoes
Baked Apples
Hot Biscuits and Butter
Green Apple Cobbler
Coffee

What is a TATOOM?

ANIMAL, vegetable or mineral? Is it something edible? Yes. It's a vegetable. In fact, if it were not for the present fad for puzzles and making up the letters in a word and then trying to recognize it immediately as a tomato!

You recognize it immediately, too, whenever you meet it in baby-sical form, whether it is scrambled up with eggs or mingled with many other foods. For the particular virtue of tomatoes is that they add their own individual touch of flavor to any dish in which they are included.

Always Recognizable

Take a tomato omelet, for instance. Here's the way to make a most appetizing one. Chop one small onion and half a green pepper fine and sauté in one tablespoon butter till tender but not brown. Add one cup canned tomato sauce, one-half teaspoon sugar, salt and pepper if necessary, and three tablespoons chopped ripe olives. Heat to boiling and pour over the omelet before folding. Do you think you would ever mistake the tomato in this combination for onions, green pepper, olives or eggs?

Or take scalloped tomatoes and pecans. Here is the way to prepare this dish. Mix contents of a No. 2 can tomatoes with three-fourths teaspoon salt, one tablespoon sugar and a few grains pepper. Have ready one-half cup finely chopped pecans and one-third cup grated cheese. Then put alternate layers of the tomatoes, pecans and cheese into a buttered baking dish. Cover the top with three-fourths cup buttered crumbs and bake in a hot oven (400 degrees) for twenty-five minutes. Serves six. The pecans and the cheese contribute their distinctive flavors to this recipe, but it is the tomatoes which make it a triumphant success.

My Favorite Recipes

Frances Lee Barton says:

PERHAPS there is no cake in all the royal book of cakes, quite so indicative of true cooking skill as an angel food. It is the most delicate and aristocratic of all cakes, and like all worth while things, in any field of endeavor, not to be arrived at too easily. But when you serve this cake to your family or to your club you have something that you and the cherries, so extra good, that you feel you've graduated into the sacred circle of cooks. And that is a distinction of which to be proud. Be sure to make it with cake flour and most of your angel cake difficulties will disappear.

Cherry Angel Food Cake

1 cup sifted cake flour; 1 cup egg whites; 1/4 teaspoon salt; 1 teaspoon cream of tartar; 1 1/2 cups sifted granulated sugar; 3/4 teaspoon vanilla; 1/4 teaspoon almond extract; 1/2 cup maraschino cherries, finely chopped.

Sift flour once, measure, and sift four more times. Beat egg whites and salt with flat wire whisk. When foamy, add cream of tartar and continue beating until eggs are stiff enough to hold up in peaks, but not dry. Fold in sugar carefully, 2 tablespoons at a time, until all is used. Fold in flour over mixture and fold in carefully; continue until all is used. Pour about 1/3 of cake batter into ungreased angel food pan. Sprinkle 1/2 of cherries over it, add another 1/3 of batter, then add remainder of cherries and rest of batter. Run knife through to bottom of pan to mix cherries evenly throughout. Bake in slow oven at least 1 hour. Begin at 275° and after 30 minutes increase heat slightly (325°F.) and bake 30 minutes longer. Remove from oven and invert pan 1 hour, or until cold.

Electric Fishes

There are several kinds of electric fishes, but the electric eel is the only one known to bank with electricity, notes a writer in the New York Herald Tribune. Upon nearing a fish it sends out a discharge which paralyzes its victim. If not swallowed the fish will recover in from ten to fifteen minutes. Electric eels were first described scientifically in 1720. Subsequent to that time they have been objects of superstition in their native South America, and have been used for medicinal purposes. Few scientific experiments have been carried on with them because of the difficulty of bringing them to this country.

Cooker Saves Fuel In Preparing Meals

Here is a nicely balanced meal which may be cooked in a cooker over one flame, thereby effecting a great economy in fuel and labor.

Pork Roast

Small Onions - Creamed Cauliflower - Sweet Potatoes - Buttered Carrots - Raisin Bread Custard
Brown a 3 pound pork roast in 2 tablespoons of fat in cooker over direct flame. Set cooker on base over low flame and cook for 1 1/2 hour. Turn roast with fatty side down. Put potatoes and onions around meat; season with salt and pepper. Put cauliflower in inset pan; add salt, pepper, butter, 1/2 cup cream crumbs and 1 cup milk. Put carrots in pan, add salt, pepper and butter. Put raisin pudding in other pan and clamp on cover. Have flame medium high until steam escapes, then lower for rest of cooking period. Cook 1 1/2 hours.

Raisin Bread Custard

1 1/2 cups stale bread
2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup raisins
1/4 teaspoon nutmeg
1 teaspoon vanilla extract
Break bread in small pieces and place in cooker inset pan, which has been buttered. Beat eggs, add milk, sugar, raisins, nutmeg and vanilla and vanilla and pour over bread. Steam in cooker.

Escalloped Potatoes

Peel and slice ten medium sized potatoes. Arrange a layer in bottom of casserole and sprinkle with salt and pepper. Repeat until bowl is full. Add milk until it appears around edge of potatoes. Cover with bread crumbs and dot with butter. Bake in moderate oven (350 degrees F.) for 1 1/2 hours.

Potato Salad

4 cups diced potatoes
1 bunch celery, cut fine
2 cups cucumbers, diced
1 small onion, chopped fine
1/2 doz. sweet pickles, chopped
2 pimientos, cut fine
5 hard cooked eggs, chopped
1 1/2 cups mayonnaise

Angel Food Cake

1 1/2 cups egg whites
1 teaspoon cream of tartar
1/4 teaspoon salt
1 1/2 cups granulated sugar
1/2 teaspoon lemon extract
1 1/2 teaspoon vanilla extract
1 cup cake flour
Beat egg whites with a flat whip. Add cream of tartar and salt when whites are frothy. Continue beating until a point of the egg whites will stand upright. Gradually beat in 1 cup of sugar which has been sifted twice. Fold in flouring. Sift the flour once before measuring. Fold in flour which has been sifted three times with the remaining 1/2 cup of sugar. Pour into a dry ungreased angel food cake pan and bake one hour in a slow oven (325 deg. F.) Invert pan until cake is entirely cold before removing from pan.

Mocha Custard

3 egg yolks
1/2 cup sugar
1/2 cup cream
1/2 teaspoon vanilla extract
1 1/2 cups strong coffee
Beat yolks slightly, add sugar, coffee, cream and vanilla. Pour into a baking dish. Set in a pan of warm water and bake in a moderate oven until custard is firm.

Coffee Souffle

1 package lemon jello
1 1/2 cups strong coffee
1/2 cup milk
4 egg yolks
1/2 cup sugar
1/4 teaspoon salt
1/2 teaspoon vanilla extract
4 egg whites
Mix yolks with liquids. Beat. Add egg whites to which sugar and salt have been added. Cook custard until it coats the spoon. Pour into beaten egg whites and blend well. Set in a cool place until it starts to jell, then heat again and pour into molds to set.

My Favorite Recipes

Frances Lee Barton says:

IN my note book of good things to eat, I wrote opposite this recipe: "perfect for porches, parties and summer festivities." Moon-shaped slices of Honey Dew melon set in lime-flavored gelatin, and spiced with mint is just about a perfect combination for any of those occasions. I serve Malted Honey Dew with small, lightly frosted cakes and tall glasses of iced, minted tea. It makes a Hottentot feel as cool as an Esquimaux.

Malted Honey Dew

1 package lime-flavored gelatin; 1 cup warm water; 1 cup minced honey dew melon.
Dissolve gelatin in warm water. Add mint leaves. Prepare melon and add. Strain mixture through very fine sieve. Turn into individual molds. Chill. Serves as a dessert, or as salad on crisp lettuce with mayonnaise. Serves 4.

Pineapple Plays Many Parts

HAVE you ever stopped to consider the multitude of dishes of which pineapple can form an integral part? It can be used in appetizers, beverages, bouillabaisse, breakfast dishes, cakes, cocktails, cordials, cups, desserts, egg-nogs, fillings, with fish, in fizzes, fritters, frozen dishes, fudge, ices, jellies, loafs, with meats, in pies, preserves, puddings, punches, salads, and sandwiches, sauces, shakes, sherbets, shortcake, slices, souffles, soups, tarts, and with vegetables.

We're sure that we missed a few because this delicious and nutritious tropical fruit is able to crop up in almost any dish; but these are all that we can remember at the moment. There are no end to the desserts in which it can appear and of the drinks to which pineapple juice or syrup can add a special flavor, all its own.

With Meats, Fish, Vegetables

We know recipes for pineapple served with beef, chicken, ham, liver and bacon, meat loaf, pork chops, pork tenderloin, roast lamb, sausages and, we think, we would not be astonished to see it make its appearance with almost any other fowl or meat.

As for fish, we have seen it served with bass, codfish, crab, lobster and shrimp, and we have no doubt that it accomplished its purpose in each case.

In the vegetable field it combines well with parsnips, peas, kidney beans, tomatoes and yams.

And may have many other affiliations of which we have not heard. Fortunately, since it plays such a large part in our dietary, there is plenty of canned pineapple on hand, and plans are being made to provide us with still more of it. Did you know that one of the biggest packers in this country and Hawaii is planning to spend approximately half a million dollars improving and adding to its pineapple canning division at Honolulu?

A Famous Recipe

It's hard to choose from among the hundreds of pineapple recipes in existence one which does this fruit justice, but perhaps one of the most famous is this:

Pineapple Upside Down Cake: Fruit Mixture—Melt two tablespoons butter in large frying pan, and pack one cup brown sugar evenly over it. Drain well the fruit from a No. 2 1/2 can crushed pineapple, and pack it on top of the sugar. **Cake Mixture:** Cream one-half cup butter and one cup sugar, and add two well-beaten egg yolks. Add three-fourths cup pineapple syrup alternately with the following sifted dry ingredients—two cups flour, three teaspoons baking powder and one-fourth teaspoon salt. Add one teaspoon vanilla. Fold in two stiffly-beaten egg whites. Pour the batter over the fruit mixture and bake in moderate oven, 375 degrees, for from thirty to forty minutes. Turn out upside down and serve either hot or cold with whipped cream on top. Serves eight to ten.

SPINACH makes for IRON MEN

IRON men are slang for dollars, but it may also mean a number of other things. Husky boys and girls, for instance. And one way to make both boys and girls husky is to see that they eat their due proportion of spinach. For the iron content of this vegetable is exceptionally high, and it is an excellent source of vitamins A and C, a fair source of vitamin B and a good source of vitamin E.

Eggs, too, are high in iron content, so let's try combining these two foods in some recipes, and see whether we can't turn out some boys and girls of the same grade as those eleven "iron men" who played through the Yale-Princeton football game last fall, and won for Yale.

A Strong Combination

Baked Spinach and Eggs: Drain and chop contents of a No. 2 1/2 can spinach, reserving the juice for soup. Make a white sauce of two tablespoons butter, one and a half tablespoons flour and one cup milk, and season with salt. Add three chopped hard-cooked eggs. Put alternate layers of spinach and the sauce in a buttered baking dish, cover with one-half cup buttered crumbs, and brown in a hot oven. Serves six.

Omelet and Spinach Omelet: Make an omelet of four eggs, one-half teaspoon salt, a few grains pepper, four tablespoons cream and one-third cup grated cheese, folding in the grated cheese with the egg whites, beaten stiff and then folded into the yolk. Heat the contents of an 8-ounce can spinach, season to taste with butter, salt and pepper, and spread on the omelet just before folding it over. Serves five.

Softening Water
In regions where the water is hard, a water softening storage tank is useful. The mechanical transformation from hard water to soft water is primarily accomplished by the employment of a chemical which completely removes all caustic, alkaline and foreign matter from the water supply.

Hints for Motorists

By C. R. Strouse
Director, School of Automobiles,
International Correspondence
Schools

TO make a tight-fitting job when renewing auto-hose connections, get a length of hose in a size just a little too small to be forced over the nipples of the radiator, tank and engine block. To swell the ends of the hose sufficiently to enable them to be slipped over the nipples, soak the ends in gasoline for about an hour. Slip the ends into place. Adjust the clamps after the gasoline has evaporated, when it will be found that the hose has a tight grip on the nipples. Do not use hose having wire or unusually heavy fabric reinforcements.

Open seams in the casing are usually responsible when a muffler suddenly becomes noisy. The leaky seams can be distinguished by the soot-blackened appearance, and can easily be sealed with ordinary asbestos furnace cement.

Cause of Winds

Wind is air in motion. If all parts of the earth were equally heated by the sun's rays, the atmosphere would be equally dense and in a state of perpetual calm. It happens, however, that the sun heats certain areas of the atmosphere more than it does others. The heated portions of the air expand and blow out over the cooler areas. The heavy air of the cool areas is no longer held back by the lighter air of the warm areas and rushes in to restore the equilibrium. Thus winds are formed, says the Washington Star. The direction of winds is considerably deflected by the rotation of the earth on its axis.

Uninhabited Islands

There are a number of uninhabited islands in the South Pacific ocean. Tristan da Cunha in the South Atlantic is one of a group of three small islands, two of which are uninhabited. This group is believed to be the most isolated uninhabited group on earth. The two uninhabited islands are named Nightingale and Inaccessible. The Coe or Keeling in the Indian ocean includes 20 islands, some of which have no inhabitants.

Founder of St. Bridget Order

St. Bridget, called "the most famous daughter of the north" was the founder of the St. Bridget Order and built the first convent of the order in 1370 in the picturesque little city of Vadstena at Lake Vetter in central Sweden. When she died in home in 1373 her body was carried to Rome all the way to the convent church in Vadstena, where it is still interred.

Old Hawaiians Star-Gazers

Polynesians who inhabit the Hawaiian Islands and whose ancestors are believed to have reached the archipelago from Tahiti had an elementary knowledge of astronomy. They steered their great outrigger canoes by the North Star and had the location of four or five planets fixed in their scheme of navigation.

Snow and Flowers

In a country which shows such a great variety of geological formations as Switzerland, the seasons cannot be clearly delineated or their time fixed as elsewhere. Here winter and spring always overlap each other, so that ski-fields and gardens in full bloom are neighbors, and startling contrasts are achieved by nature.

Geop Not in Philippines

Geop isn't in the Philippines, but some 1,500 miles east of there, in the Hawaiian Islands. It belongs to the United States, having been ceded by Spain at the conclusion of the Spanish-American war. It has an area of only 500 square miles.

Florida Produce Gasoline

There are fields where gasoline is produced which does not need to be refined. Among them are a field in Calgary, Canada; one in Alberta, and one in New Mexico.

Radium Salts for Healing

Strange to say, it is not the pure elemental radium that is sold and brought. This, a white, glistening solid, visible in the dark, was first prepared only after the greatest difficulty in 1910 by Madame Curie. Fortunately, it is not radium metal that is necessary for cancer treatments. In hospitals, it is grayish salt of radium, that looks like dirty table salt, which is used; radium bromide, perhaps, which contains chemically combined about 84 per cent of radium, or it may be radium sulphate. From the radium, speed extremely penetrating rays, more penetrating than X-rays, destroying morbid cancer cells, fibroid tumors and birthmarks.

Dover, Delaware

Planned by William Penn in 1682, it was not until 1717 that Dover, Del., was laid out. Penn designed it to be the most important town of the County of Kent. In 1722 the state house, later the state capital and today the oldest edifice of its type in public use in the United States was built. In subsequent years Dover's "Green" came to be surrounded by handsome homes. Through the intervening decades these homes have slowly developed into museums of high standing, with their furniture, their fittings and their art.

Stork Welcome Bird

Throughout Europe the stork is considered a harbinger of good luck as well as of babies, and nearly every household hopes that a family of storks will build a nest on its chimney top when they return from Africa each spring. Some householders, living in districts no longer inhabited by these birds, even set up artificial nests and install wooden birds in them.—Collier's Weekly.

Tea Leaf Fortune Telling

If two tea stalks appear on the surface of a cup of tea they are to be placed on the back of the left hand and struck with the back of the right; if they remain unmoved on the left, or adhere to the right, then the one loved will remain true; but if one adheres and the other not she will be false.

Bamboo Fast-Growing Plant

Bamboo, said to be "one of nature's most valuable gifts to uncivilized man," is the fastest growing of the higher plants. There is a species in Ceylon, the dendrocalamus giganteus, writes H. Wetmore, Tacoma, Wash., in Collier's Weekly, that frequently grows at the rate of one inch in every 90 minutes.

Waterfalls Flow Uphill

Probably the only place in the United States where waterfalls flow uphill is the Naunau valley back of Honolulu, territory of Hawaii. The strong northeast trade winds, entering the valley in the vicinity of Naunau Pali, blow the water upward and dissipate it into spray.

The Riksdag in Sweden.
The Riksdag in Sweden is particularly notable among European parliaments because it exercises a power greater than that even supposedly held by the throne. The king governs by the consent of the governed, not by divine right, the governed being represented by this all-powerful assembly. The monarchy could be abolished and a republic established by the vote of two consecutive Riksdags between which there had been a general election.

Do Not Need Summer Time.
The northern countries of Europe, such as Sweden, Norway and Scotland, do not adopt summer time, as daylight extends well toward midnight and starts again several hours later. Near the Arctic circle daylight is practically continuous throughout the summer time.

First Naval Power.
Crete, the third largest island in the Mediterranean, is the place where naval power originated. King Minos of Crete, was its founder. He was the first ruler to acquire dominion over the sea. Civilization on the island dates back to 3400 B. C.

No Chance.
"I should like to educate the taste of my neighbors," said H. H. Ho, the sage of Chinatown, "but customs are hard to conquer. Try as I might I could not hope to turn them from a Sousa march to listen to the delicate tone differentiations in Chinese music."

Oldest Court Records.
At Eastville, Va., what are said to be the oldest continuous court records in the United States, dating from 1632, are found. It is claimed that those at Accomack, Va., are the second oldest.

Stockings Worn in World War.
The woolen stockings worn by soldiers in the World war were manufactured from worsted merino composed of 60 per cent wool and 40 per cent cotton on the "French system" of worsted yarn spinning.

"Blue Danube Waltz".
The "Blue Danube Waltz" by Johann Strauss, Jr., was first played at the Danubius, Vienna, on February 18, 1867.

Being Proficient, Efficient.
Proficient and efficient are almost interchangeable, but not quite. Proficiency denotes skill, as does efficiency. But the latter introduces an element of mental capacity not connoted by the former. To illustrate: Two workmen may be equally proficient, equally facile with their tools. They are given identical jobs. One arranges his tools orderly, so that there will be no lost time in the performance of the job; the other mislays his tools and loses much time in finding them. The first is efficient; the second is not. Similarly, a woman may be a proficient, capable housekeeper; but not nearly as efficient as she would be with modern mechanical aids.—Literary Digest.

The Lizard Canary.
Though smaller than the Norwich, the lizard canary resembles the latter variety somewhat in build. It is not so full in the neck or so large in the head, however. English breeders say that the first lizard canaries were brought to their country by the Huguenots when they fled from the continent, and these birds probably made their first journey to America via the British Isles.

Reredos in Architecture.
A reredos in church architecture is usually the screen back of the altar which is adorned with sculptured work comprising the tabernacle, niches, statuary and the like. In some great cathedrals in England, such as Durham, Winchester and Salisburgh, the reredos is a mass of elaborate carving which reaches nearly to the ceiling.

Had No Generators.
The Bureau of Standards says that no early automobiles had generators. Some used dry batteries and some magnets for ignition. Acetylene or oil lights were used. The generator came in with the self-starter.

Wapiti, Indian Name for Elk.
Wapiti, the Indians called our American elk. The mighty, yellow-brown wapiti is the largest of American round-horned deer. The moose of the North is the largest flat-horned deer.

The Merchant Marine.
All the merchant vessels registered, enrolled or licensed under the laws and flag of a country constitute the merchant marine of that country.
